Do you think yoga and mindfulness can help the children you work with, but have no idea where to start? You've learned some mindfulness activities, but can't figure out when and how to use them? Run out of good options for working with your most challenging kids? All children deserve the chance to thrive, and a growing body of research shows that yoga and mindfulness are powerful tools to help navigate a challenging world.

Join Mayuri Gonzalez, E-RYT, RCYT, director of the School Yoga Project, (a Little Flower Yoga program in New York City schools), to explore how these practices can help kids soothe the protective part of their brain and engage and exercise the thoughtful part.

You'll walk away from this engaging seminar with a step-by-step approach to integrate the practices of yoga and mindfulness to help children and adolescents who are struggling to regulate their emotions, sustain attention and control impulsive behavior.

Based on a program used with children in NYC schools, this framework for helping children access the inner resources of their body, breath and mind is comprehensive and effective, as well as accessible even for those with no prior yoga or mindfulness experience.

It's time to help our kids move away from reactivity and toward balanced engagement with the world, both at home and at school. This seminar combines discussion, lecture, practice and reflection to send you back to your work inspired and empowered with both new tools and a clear knowledge of how to implement them.
