

Outline

DSM-5® and ICD-10 Updates

Social-Pragmatic Communication Disorder
Impact on service delivery (school/community)
Successfully link home, school and therapy
IEP/504/Do they qualify for school services?
Co-morbid disorders: Why the difference is important

Social Skills Interventions

Improve social skill deficits
“Kid Cop” behaviors and why other kids get angry
How to get peers to recognize them in positive ways
Group activities
Early intervention programs that can deliver long-term success

Communication Interventions

Conflict resolutions that are effective in multiple settings
Help peers and family members relate
Verbal interventions that overload processing
Pragmatic language and other abstract issues

Sensory Interventions

Self-stimulation (appropriate & inappropriate)
Sensory strategies to avoid
Coping/calming techniques that reduce meltdowns
Sensory diet

Anxiety Interventions

Anxiety-reducing activities
How anxiety impacts rigidity
Help them “self-regulate”
Successful transitions

Depression Interventions

Impact on flexibility and change
Therapy that works for people with HFA
Emergence in adolescence
Solitude vs. loneliness

LIVE WEBCAST DETAILS

Join us on April 18, 2018, for this live, interactive webcast!

Invite your entire office and, like a live seminar, “attend” the webcast at its scheduled time. It’s easy and convenient! Webcasts provide everything you need for a premier educational experience including real-time video and audio of the speaker. See and hear the speaker and watch the slides all on your computer screen. Seminar materials are available for download. One CE Certificate is included. Only \$19.99 per CE Certificate for each additional participant.

Objectives

1. Implement interventions to teach children/adolescents diagnosed with High-Functioning Autism (HFA) the skills to independently manage their own regulation, anxiety and fears.
2. Design effective strategies to approach transitions and routine life challenges for children/adolescents diagnosed with HFA.
3. Utilize specific interventions to improve long-term social-emotional success for children/adolescents diagnosed with HFA.
4. Suggest specific sensory-based calming techniques to reduce anxiety for children/adolescents diagnosed with HFA.
5. Recognize the potential side effects of psychotropic medication that can mimic or cause behavioral issues related to HFA.
6. Design specific behavioral interventions to reduce frequency, intensity and duration of difficult behaviors in children/adolescents with HFA.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a DVD or CD/digital manual package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

Seminar on DVD or CD Package: You can purchase a self-study package on the subject. You will receive a set of CDs or DVDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesi.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

ADHD Interventions

ADHD vs. hyper-focus
Commonly prescribed medications and possible benefits and side effects
Specific triggers and what fuels the rage
Reduce aggressive and disruptive behaviors
Mistakes that escalate defiant behaviors
Overcome refusals to comply with even simple requests

Obsessive-Compulsive Disorder (OCD) Interventions

What to do when they become stuck on high interest areas
Specific medication interventions
Impact on socialization and behaviors

Interventions for Specific Difficult Behaviors

Reduce Internet and electronic addictions
Changes in technology, school systems and mental health delivery
Cognitive-Behavior Therapy (CBT) for mood and anxiety

Psychopharmacological Interventions

Differentiate among common medications
Medications that mimic difficult behaviors
Side effects and off label use

Case Studies, Demonstrations & Activities

Case studies that demonstrate specific interventions for aggressive and non-compliant behaviors
iPad® apps for social success, behavioral changes and speech and language
Staff training techniques to experience what an individual on the spectrum might

HIGH-FUNCTIONING AUTISM

Proven & Practical Interventions for Challenging Behaviors in Children, Adolescents & Young Adults

This intensive, full-day seminar provides proven intervention strategies, essential treatment tools, and behavioral techniques to help you analyze behaviors and actions, identify consequences for behaviors, and teach new skills to children, adolescents and young adults with high-functioning autism (HFA). Walk away with practical intervention techniques for social success, behavior changes and overcoming challenging co-occurring behaviors that deliver success through adulthood. The challenging co-occurring issues to be addressed are:

- **Social skills**
 - **Sensory**
 - **Depression**
 - **ADHD**
 - **Psychotropic medications**
- **Communication**
 - **Anxiety/Rigidity**
 - **Meltdowns**
 - **OCD**
 - **Non-compliance**

Gain valuable insight into common psychotropic medications, including both the helpful effects and potentially problematic side effects, that these individuals are prescribed. We will explore HFA and the new DSM-5® diagnosis of Social-Pragmatic Communication Disorder. You will receive the necessary tools to gain effective collaboration between clinicians, educators and parents. Through case studies, video clips and class participation you will leave this seminar with the confidence to identify actions that cause impediments in change, utilize more successful consequences for behaviors, and teach new skills to children, adolescents, and young adults with HFA. Don't just manage these individuals; provide interventions that can lead to successful independence into their adult years!

Speaker

JAY BERK, PhD, is a licensed clinical psychologist who is internationally recognized for his work in the child/adolescent behavioral field. For over 25 years, Dr. Berk has been treating clients with autism, ODD, ADHD, anxiety and stress, depression, learning disabilities, Tourette's Syndrome and individuals who have multiple impairments. He conducts 15 social skills/mental health groups for children and adolescents and works daily with school and community professionals, families and parents. Dr. Berk continually consults for several school districts. In his private practice, in Beachwood, Ohio, he provides therapy for children, adolescents, families, testing and evaluation, school consultation as well as an alternative educational program.

Dr. Berk presents nationally on the topics of autism, disruptive behavior disorders, mental health issues in the classroom, ODD and social skills competency. In his workshops, he teaches professionals who work with children and adolescents, practical treatment and intervention strategies. He has been invited to present at hundreds of schools and conferences including being a repeated consultant to the Department of Education in Hawaii. As a past consultant to the United Nations, Dr. Berk authored a manual for UNICEF that was used by teachers working with children throughout Bosnia during the war. He has also worked in London, England with defiant teenagers; Kristiansand, Norway with traumatized youth; and the American Red Cross with trauma response.

Speaker Disclosures:

Financial: Dr. Jay Berk maintains a private practice. He receives a speaking honorarium from PESI, Inc.

Non-financial: Dr. Jay Berk is a member of the American Psychological Association.
