# CHRONIC ANXIETY

**Chronic anxiety disorders all involve a “threat” that doesn’t occur.** Panic attacks don’t kill, obsessive doubts about the stove don’t cause fires, social anxiety doesn’t lead to disgrace and isolation, worry doesn’t lead to insanity. The feared outcomes recede into the future the way an optical illusion recedes into the horizon.

**Why are anxiety disorders so powerfully chronic?** It’s because chronically anxious clients get tricked by their own efforts to avoid, distract from, and protect against the perceived dangers. When the dangers don’t come to pass, they believe they had a narrow escape from a terrible calamity, and feel more vulnerable going forward rather than less. They become increasingly afraid of more and more improbable events. What we call the “anxiety disorders” could be more accurately termed “the disorders of excessive self-protection”, because that’s how they function!

**How can you help them recover?** By teaching them how to disengage from the self-protective behaviors that trick them. Attend this workshop and learn how to help your anxious clients find the evidence of this in their own lives, so you can help them approach and accept, rather than avoid and resist, the experience of anxiety.

**This workshop will teach you to empower your anxious clients to see themselves as good, capable people who have been fooled by anxiety, rather than defective people who need protection.** Discover how to motivate your clients to seek out, rather than avoid, the corrective experiences they need for recovery. Take home effective strategies from Acceptance and Commitment Therapy, Paradoxical Therapy, Metacognitive Therapy, and traditional CBT to help your clients rediscover the hopes and dreams they had for life before they were derailed by their struggle against anxiety. You, and your clients, will be glad you did!

## Speaker

Effective treatment methods for anxiety disorders were just starting to enter the mainstream when **David Carbonell, Ph.D.**, began his career as a psychologist over 25 years ago. He’s been helping people overcome fears and phobias, and developing new treatment strategies, ever since. Blending humor, compassion, and acceptance with cognitive behavioral methods, Dr. Carbonell, a sought after presenter, has taught his unique treatment methods to more than 5,000 mental health professionals at workshops across the country.

Dr. Carbonell is the “Coach” at [www.anxietycoach.com](http://www.anxietycoach.com), a popular self help site, as well as the author of *The Worry Trick* (New Harbinger Publications, 2016) and *Panic Attacks Workbook* (Ulysses Press, 2004). He’s the founding member of The Therapy Players, an improvisational comedy troupe of psychotherapists, and a frequent speaker at annual conferences of the Anxiety and Depression Association of America. He has a unique blend of CBT, ACT, Metacognitive Therapy to offer people with anxiety disorders, and the professionals who treat them, and it’s his goal for you to leave armed with an approach, and numerous specific tools, that you can use the next day.

Clinicians rave about David’s guiding formulation of the Anxiety Trick, the simple, humorous language with which he describes it, and the way he helps you translate it into practical, powerful interventions. Join him for a day and go home ready to use innovative new strategies for helping anxious clients, bypassing many of the usual obstacles to progress as you guide your clients to recovery.

Speaker Disclosure:  
Financial: David Carbonell maintains a private practice. He receives royalties as an author for Ulysses Press. Dr. Carbonell receives a speaking honorarium from PESI, Inc.  
Non-financial: David Carbonell has no relevant non-financial relationship to disclose.

## The Worry Trick: How Your Brain Tricks You into Expecting the Worst and What You Can Do About It

By David Carbonell, Ph.D., **Your Presenter!**

Are you truly in danger or has your brain simply “tricked” you into thinking you are? In *The Worry Trick*, psychologist and anxiety expert David Carbonell shows how anxiety hijacks the brain and offers effective techniques to help you break the cycle of worry, once and for all. Anxiety is a powerful force. It makes us question ourselves and our decisions, causes us to worry about the future, and fills our days with dread and emotional turbulence. Based in acceptance and commitment therapy (ACT) and cognitive behavior therapy (CBT), this book is designed to help you break the cycle of worry.

## Panic Attacks Workbook: A Guided Program for Beating the Panic Trick

By David Carbonell, Ph.D., **Your Presenter!**

Panic is an insidious trick that makes your clients fear simple, everyday things: driving, shopping, socializing, traveling and more. The first attack comes out of nowhere, and then panic tricks them into responding in precisely the ways that invite the panic back, again and again. The panic trick is highly effective and has drawn millions of people into panic attacks and phobias. You can help your clients outsmart and beat this trick. This book shows you how, with a step-by-step guide from panic to recovery. The proven methods in this book show how to identify the panic trick and empower your clients with the tools to address their fears and solve this debilitating problem.

### Live Webcast Details and Live Webcast Continuing Education Credit Information

**Join us on December 13, 2018, for this live, interactive webcast!**
