CERTIFIED CLINICAL TRAUMA PROFESSIONAL

Two-Day Trauma Competency Conference

The successful resolution of traumatic stress can be simple.

Studies indicate that there are four key elements to effective trauma treatment. When you accomplish these four key elements in treatment with your clients, you will be able to reduce their symptoms and improve clinical outcomes.

Attend this conference and you will walk away with a step-by-step **four-stage framework** for navigating essential elements of trauma treatment with your traumatized clients.

The essential elements are common to all evidence-based trauma treatments, you will learn how you can integrate this framework with your current approach or methodology to make your trauma treatment even more effective!

This trauma competency training can **transform your clinical practice and help improve your trauma treatment outcomes**, just as it has for other clinicians around the world.

In addition, **completion of this two-day conference meets the educational requirements when applying to become a Certified Clinical Trauma Professional (International Association of Trauma Professionals, www.traumapro.net)

Meet Your Speaker

ric Gentry, Ph.D., LMHC, is an internationally recognized leader in the field of disaster and clinical traumatology, having trained thousands of professionals and paraprofessionals worldwide in the treatment of traumatic stress. His doctorate is from Florida State University where he studied with Professor Charles Figley, one of the pioneers of traumatic stress. Dr. Gentry was one of the original faculty members of the Traumatology Institute and later became the co-director of the International Traumatology Institute at the University of South Florida. Dr. Gentry, along with Dr. Anna Baranowsky, is the co-author and co-owner of the Traumatology Institute Training Curriculum—17 courses in field and clinical traumatology leading to seven separate certifications.

Dr. Gentry has been a clinical member of several CISM teams and has provided assistance in many different disaster and critical incidents including Oklahoma City, New York City, and hurricanes in Florida. He was the developer of the Community Crisis Support Team, which began in Tampa, Florida, and has become a model for communities to integrate mental health services into their disaster response network.

Dr. Gentry has published many research articles, book chapters, and periodicals in this maturing area of study. He is the co-author of the critically acclaimed *Trauma Practice: Tools for Stabilization and Recovery* (Third Edition) published by Hogrefe and Huber in 2011. He has a private clinical and consulting practice in Sarasota, FL, and is adjunct faculty at many universities. Dr. Gentry draws equally from his scientific study and from his rich history of 30+ years of clinical experience with trauma survivors to balance this training with current, empirically grounded information and experienced-based compassionate intervention skills. You will be challenged, inspired, and uplifted by Dr. Gentry and this unique training.

Forward-Facing Trauma Therapy: Healing the Moral Wound

By J. Eric Gentry, Ph.D., LMHC Your Presenter!

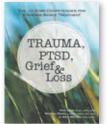

In this groundbreaking book, trauma expert J. Eric Gentry builds upon pioneering insight to introduce Forward-Facing Trauma Therapy (FFTT), the next evolutionary leap in the treatment of traumatic stress. FFTT addresses trauma and its destructive symptomology at its source, the dysregulation of our autonomic nervous systems and hypervigilant threat response caused by adaptation to painful past experiences. Dr. Gentry provides a step-by-step guide for implementing a three-pronged methodology, and explains the how and why the techniques work so effectively.

Certification Training for Compassion Fatigue Professionals (CCFP)

By Martha Teater, MA, LMFT, LCAS, LPC, & John Ludgate, PhD & J. Eric Gentry, Ph.D., LMHC Your Presenter!

The Certified Compassion Fatigue course is designed by Dr. Eric Gentry to provide participants with the skills and knowledge to meet the International Association of Trauma Professionals 16 Certification Criteria for the CCFP designation. This course includes a wide array of information and skills to help caregivers combat compassion fatigue and develop professional resiliency skills to be maximally functional under the emotional demands of their work environment. This is an intermediate-level certification and course and is open to any care giving professional or volunteer.
