4
DAY

POSITIVE NEUROPLASTICITY CERTIFICATE COURSE

Rick Hanson, Ph.D. is a *NY Times* bestselling author and an internationally recognized leading expert on positive neuroplasticity.

Dr. Hanson draws on a 40-year background in clinical psychology, human potential, and neuroscience to help thousands of people rewire their brains, overcome their mental health challenges, and become the fullest versions of themselves.

His work has been praised by Stephen Porges, Tara Brach, Peter Levine, Kristine Neff, and Dan Siegel; featured in national media, and embraced by millions of readers as a voice they can trust.

This 4-Day Certificate Course is a unique opportunity for you to train with Dr. Hanson himself and discover how your clients can enjoy more successful therapeutic outcomes from the science-backed strategies of Positive Neuroplasticity!

Join Dr. Hanson as he shares an invaluable toolbox full of accessible practices along with a reliable blueprint for how you can more skillfully assess and treat clients and catalyze lasting change.

Attend this hands-on 4-day course and learn how to:

- Treat anxiety, depression, trauma, and shame with positive neuroplasticity techniques
- Foster rapid and far-reaching healing and growth with evidence-based strategies
- More skillfully assess which psychological resources your clients need most for better treatment outcomes
- Turn clients' experiences into lasting inner strengths for improved clinical results
- Skills and tools to make lasting changes inside the brain
- Rapidly overcome therapeutic obstacles by using positive psychological material to soothe and replace negative material.
- More effectively work with couples, children, and other special populations

Don't miss this rare opportunity to train with a leading expert on positive neuroplasticity and feel the satisfaction of bringing new and effective paths to healing to your clients.

Resilient

How to Grow an Unshakable Core of Calm, Strength, and Happiness

By Rick Hanson, Ph.D. with Forrest Hanson

Rick Hanson is known for his trademark blend of neuroscience, positive psychology, and contemplative practices. And now he's showing the way to build the very foundation of well-being: Resilience. Today, people feel rattled by political and economic forces, and realize that they need to be able to rely on their own inner guidance systems in order to stay happy and calm. Not simply about weathering negative experiences, *Resilient's* groundbreaking program shows you how to harness the power of positive experiences in order to build an unshakeable core.

Just One Thing Card Deck

52 Practices for More Happiness, Love and Wisdom

By Rick Hanson, Ph.D.

We are so busy these days that it's great to have just one thing to focus on: a simple practice to reflect on and be inspired by that will gradually strengthen your neural pathways of happiness, love, and wisdom. These practices are grounded in brain science, positive psychology, and contemplative training. They're simple and easy to do - and they produce powerful results: bringing you more joy, more fulfilling relationships, and more peace of mind and heart.

Just One Thing

Developing a Buddha Brain One Simple Practice at a Time

By Rick Hanson, Ph.D.

You've heard the expression, "It's the little things that count." Research has shown that little daily practices can change the way your brain works, too. This book offers simple brain-training practices you can do every day to protect against stress, lift your mood, and find greater emotional resilience. *Just One Thing* is a treasure chest of over fifty practices created specifically to deepen your sense of well-being and unconditional happiness.

Buddha's Brain

The Practical Neuroscience of Happiness, Love, and Wisdom

By Rick Hanson, Ph.D. with Richard Mendius, M.D.

Buddha's Brain joins the forces of modern neuroscience with ancient contemplative teachings to show readers how they can work toward greater emotional well-being, healthier relationships, more effective actions, and deepened religious and spiritual understanding. This book will explain how the core elements of both psychological well-being and religious or spiritual life-virtue, mindfulness, and wisdom-are based in the core functions of the brain: regulating, learning, and valuing. Readers will also learn practical ways to apply this information, as the book offers many exercises they can do to tap the unused potential of the brain and rewire it over time for greater peace and well-being.

Hardwiring Happiness

The New Brain Science of Contentment, Calm, and Confidence

By Rick Hanson, Ph.D.

Hardwiring Happiness lays out a simple method that uses the hidden power of everyday experiences to build new neural structures full of happiness, love, confidence, and peace. You'll learn to see through the lies your brain tells you. Dr. Hanson's four steps build strengths into your brain to make contentment and a powerful sense of resilience the new normal. In just minutes a day, you can transform your brain into a refuge and power center of calm and happiness.

Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.
