PERSONALITY DISORDERS

The Challenges of the Hidden Agenda

The client whose problems meet the DSM-5® criteria for a Personality Disorder can be the most difficult client in your caseload to treat. They may require more time in therapy, more energy and involvement on your part, experience a greater number of life crises, and create more upset with their family, work, and social systems than virtually any other diagnostic group. Often being “sent” for therapy rather than choosing therapy, their motivation for change may be limited and their personality disorder is likely co-morbid with other exacerbating disorders.

Join Gregory W. Lester, PhD, and take home an integrated approach for working with these challenging clients.

Speaker

Gregory W. Lester, PhD, is a clinical, consulting, and research psychologist with practices in Colorado and Texas. Dr. Lester has presented over 2,000 personality disorders trainings to over 200,00 professionals in every major city in the United States, Canada, and Australia. In his nearly 40 years of clinical practice, Dr. Lester has treated over 1,000 personality disorder cases and has performed psychological evaluations on over 2,500 individuals.

Dr. Lester has served on the graduate faculty of The University of St. Thomas and as a special consultant to The United States Department of Justice. Dr. Lester’s office served as one of the original research sites for the DSM-5® revision of the personality disorders section where he collaborated with Emory University, the New York State Psychiatric Group, The University of Missouri, The University of Kentucky, and the late Dr. Robert Spitzer, chairman of the DSM-3 committee.

Dr. Lester is a member of the American Psychological Association, the Texas Psychological Association, and the Colorado Psychological Association. Dr. Lester is the author of nine books, including *Power with People*, a manual of interpersonal effectiveness, *Shrunkn Heads*, an irreverent memoir of his graduate school training, and *Diagnosis, Treatment, and Management of Personality Disorders*, which is the largest-selling front-line clinical manual on diagnosing, treating, and managing personality disorders. Dr. Lester’s research and articles have appeared in publications including *The Journal of the American Medical Association*, *The Western Journal of Medicine*, *The Yearbook of Family Practice*, *The Journal of Behavior Therapy*, *The Journal of Marriage and Family Therapy*, *The Handbook of Depression*, *Transactional Analysis Journal*, *Living Word Magazine*, *The Priest Magazine*, and *The Houston Lawyer*.
