Welcome to the Future of IASTM

Until now, choices were limited if you wanted to integrate Instrument-Assisted Soft Tissue Mobilization (IASTM) into your patient care. You had to buy expensive tools and attend an expensive class that locked you into one way of utilizing IASTM.

Not anymore.

This hands-on certification program equips you with all the skills you'll need to begin using IASTM with patients across the continuum of care - without spending thousands on equipment. Explore the fundamentals of modern IASTM techniques, and learn how to combine IASTM and functional movement to produce the kinds of active treatment strategies that are revolutionizing rehab. Discover cutting-edge treatments that integrate the latest neuroscience research, and take home highly effective clinical applications of IASTM to improve function and performance with your patients. Instructed by industry-leading clinicians, hands-on labs throughout the program will show you how to get impressive results without aggressive techniques – your patients (and your hands) will thank you!

Speaker

DANNY PORCELLI, DC, attended Parker College of Chiropractic in Dallas Texas where he obtained a Doctorate in chiropractic medicine and a B.S. in health and wellness. Prior to attending Parker he received a B.S. in psychology from the University of Central Florida, Orlando. Dr. Porcelli was selected to be a treating physician at the 2010 Central American Games in Bogota Colombia and treated the speed skaters and Para-Olympic triathletes.
