# TREATING PAIN

## Effective Interventions to Move People from Hurt to Hope

Do you have clients who describe their chronic pain like, “My back is KILLING me” or, “I just want my life back”? They want a life that isn’t controlled by pain...before it limited their activity, interfered with their sleep, and prompted the use, possibly overuse, of medications. We are witnessing a devastating public health crisis that is ruining individual’s lives, tearing up families, and ripping through communities, yet most of us are ill-prepared to address this with skill and expertise. We need to arm ourselves with the tools needed to offer our clients evidence-based interventions that will help them live healthy and productive lives.

Attend this interactive and cutting-edge training featuring Martha Teater, MA, LMFT, LCAS, LPC and Don Teater, MD, MPH, and learn creative tools and techniques to transform your practice. Their unique perspective comes from understanding the medical aspects of pain management and applying behavioral health interventions that will help clients move from hurt to hope.

Don’t miss this opportunity to learn powerful mindfulness interventions and motivational interviewing techniques to move your clients toward behavior change. Master four pain-changing CBT tools and gain a better understanding of the medical aspects of pain management. You will leave with the skills and confidence you need to provide practical and life changing help to move people out of chronic pain and into active, healthy, and meaningful lives.

## Objectives

1. Describe how the emotional aspect of client’s pain can be more problematic than the physical aspect.
2. Explain the importance of early intervention in the pain cycle and its clinical implications.
3. Identify the most common pain complaints as related to clinical treatment.
4. Specify the differences in risks of opioid medication use in men, women and the elderly and the related treatment implications.
5. Assess the psychological, physical, social, and behavioral factors that contribute to chronic pain and articulate their treatment implications.
6. Implement motivational interviewing techniques to motivate clients towards behavior change.
7. Examine and counter maladaptive myths about pain to improve client level of functioning.
8. Summarize the CDC recommendations for the treatment of chronic pain and communicate how that impacts clinical treatment.
9. Utilize mindfulness-based strategies to decrease symptoms of chronic pain in clients.
10. Distinguish how different types of pain require different treatment approaches.
11. Implement CBT tools to change people’s thought about their discomfort.
12. Identify effective, evidence-based medical treatments to improve quality of life.

**Treating Chronic Pain**  
*Pill-Free Approaches to Move People From Hurt To Hope*

By Martha Teater, MA, LMFT, LCAS, LPC and Don Teater, MD, MPH **YOUR SPEAKERS!**

The best treatment for chronic pain isn't found in a doctor's office or pharmacy-it's in the therapist's office. Written by a mental health professional and a physician with over 50 years combined experience, this skills manual will teach you how to treat pain without pills and with confidence, using cutting-edge assessments, insights and interventions.

**Overcoming Compassion Fatigue**  
*A Practical Resilience Workbook*

By Martha Teater, MA, LMFT, LPC, LCAS **YOUR SPEAKER!** and John Ludgate, PhD

A fresh workbook approach to equip you with practical tools to manage your work and minimize your risk of personal harm. Expertly weaved with personal experiences, assessment tools, proven interventions, and prevention strategies. Filled with worksheets, exercises, checklists and assessments.

**Opioid Use Disorder**  
*A Holistic Guide to Assessment, Treatment, and Recovery*

By Charles Atkins, MD

Overdoses have lowered the life expectancy in the United States for two years in a row. The leading cause -- opioids. This epidemic has spread through every sector of our country, destroying lives as parents, friends, families, and those entrapped by opioids struggle to find help.

PESI Inc. is proud to offer this seminar (at these locations only) *free* of charge (on live seminar tuition) for veterans and active duty military personnel. *Limited seats available; advance online registration required.*
