Trauma-Informed Compassionate Classrooms

Strategies to Reduce Challenging Behavior, Improve Learning Outcomes and Increase Student Engagement

As an educator, you are faced with the challenge of meeting the social and emotional needs of all your students. This can be challenging enough with typical learners but it is even more difficult with those who have experienced trauma or have mental health challenges. Students who have experienced trauma often present as difficult to engage and display problematic behavior such as a low frustration tolerance, angry outbursts or difficult social relationships. These behaviors all get in the way of the teaching and learning. When a student has experienced trauma, he/she often spends much of the day in fight/flight/freeze mode which limits their capacity to learn. Their outwardly aggressive and irritable behaviors also disrupt the flow in the classroom, requiring your time and attention. Despite the amount of time you invest in behavior charts or incentives for good behavior, traditional behavioral approaches to classroom management and a punitive approach to discipline simply are not effective.

Join Julianna Elsworth, MSW, LCSW, and learn how a trauma-informed approach will greatly reduce challenging behavior, improve student engagement and increase learning outcomes. Leave this seminar with new strategies, tools and resources to reduce students' impulsiveness, aggressive behaviors and inattention and increase their focus, attention and compassion. While this positive approach is absolutely essential for students with trauma, it will also greatly benefit each and every student in your classroom. Return to your school with:

- Research-based practices to establish a trauma-informed classroom
- A plan to develop positive relationships and build trust with your hard-to-reach students
- Proven techniques for communicating more effectively and collaboratively with challenging students
- Cognitive skill-building strategies which incorporate the science of neuroplasticity and the strengths-based perspective of neurodiversity

Speaker

Julianna Elsworth, MSW, LCSW, has dedicated her career as a psychotherapist, educator, and advocate to individuals who have endured trauma. She has extensive experience educating professionals who work with trauma survivors, including providing agency wide residential treatment trainings and for teachers in the Syracuse City School District. Julianna has worked in numerous settings across the social work field, including psychiatric inpatient hospitals, adolescent residential treatment, and as an adjunct professor for the MSW program at Syracuse University.

Julianna works with children, adolescents, adults, and families as an outpatient private practice therapist in Charlotte, NC. Her specialties include complex trauma, sexually reactive behaviors in childhood, depression, anxiety, behavioral problems, and high conflict families. Julianna is knowledgeable, likable, and engaging and relates to her clients and audiences in a personable, direct and compassionate manner. She is an expert at taking evidenced-based practices and implementing them into creative and functional interventions that get results and promote positive client outcomes.

Speaker Disclosure

Financial: Julianna Elsworth has an employment relationship with Calming Waters Counseling Services. She receives a speaking honorarium from PESI, Inc.

Non-financial: Julianna Elsworth has no relevant non-financial relationship to disclose.

60 Trauma-Informed Assessment and Treatment Interventions Across the Lifespan

By Christina May Reese, LCPC, PHD

Attachment is the way that we connect to each other. Without attachment, people feel alone to deal with challenges they face, which leads to distress, dysfunction and mental health disorders. Improve your client's relationships by teaching them **strategies to feel more connected, reestablish trust, and restore positive emotions**. Dr. Christina Reese, a recognized attachment and trauma professional, has created a comprehensive guide that explains attachment over a lifetime, and offers trauma-informed approaches to treat attachment at any age.

Beyond Behaviors: Using Brain Science and Compassion to Understand and Solve Children's Behavioral Challenges

By Mona M. Delahooke, PhD

In *Beyond Behaviors*, internationally known pediatric psychologist, Dr. Mona Delahooke describes behaviors as the tip of the iceberg, important signals that we should address by seeking to understand a child's individual differences in the context of relational safety. Featuring impactful worksheets and charts, this accessible book offers professionals, educators and parents tools and techniques to reduce behavioral challenges and promote psychological resilience and satisfying, secure relationships.
