Speaker

JAY BERK, PhD, is a licensed clinical psychologist and an internationally recognized expert in the child/adolescent behavioral field who brings both a clinical and education perspective to his work with children, adolescents and their families. For over 25 years, Dr. Berk has been treating clients with ODD, ADHD, autism, anxiety and stress, depression, learning disabilities, Tourette's Syndrome and individuals who have multiple impairments. He conducts 15 social skills/mental health groups for children and adolescents and works daily with school and community professionals, families and parents. Dr. Berk continually consults for several school districts. In his private practice, in Beachwood, Ohio, he provides therapy for children, adolescents, families, testing and evaluation, school consultation as well as an alternative educational program.

Dr. Berk presents nationally on the topics of autism, disruptive behavior disorders, mental health issues in the classroom, ODD and social skills competency. In his workshops, he teaches professionals who work with children and adolescents, practical treatment and intervention strategies. He has been invited to present at hundreds of schools and conferences including being a repeated consultant to the Department of Education in Hawaii. As a past consultant to the United Nations, Dr. Berk authored a manual for UNICEF that was used by teachers working with children throughout Bosnia during the war. He has also worked in London, England with defiant teenagers; Kristiansand, Norway with traumatized youth; and the American Red Cross with trauma response.

Speaker Disclosures:

Financial: Dr. Jay Berk maintains a private practice. He receives a speaking honorarium from PESI, Inc.

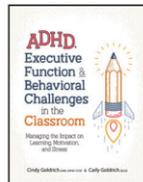

Non-financial: Dr. Jay Berk is a member of the American Psychological Association.

Objectives

- Articulate how behavioral-driven choices differ from mental health-driven behaviors and characterize how these differences inform your choice of intervention.
- Determine effective positive behavior support strategies to successfully discipline the special needs child.
- Communicate the effective uses of medications and potential side effects that can appear as misbehaviors.
- Discriminate how IDEA relates to mental health issues and discipline.
- Implement various school-based strategies, used in collaboration with community clinicians, to intervene when behavioral issues arise from mental health conditions.
- Apply communication techniques that create a climate for success inside and outside the classroom.
