HOT TOPICS AND INNOVATIONS IN FALL PREVENTION

- What fall prevention will look like in 1, 5, and 10 years

HANDS-ON LABS PREDICT AND PREVENT FALLS WITH A COMPREHENSIVE RISK ASSESSMENT

Practice today's best evaluations for:

- Balance
- Visual-spatial function
- Sensory-motor integration
- Proprioception
- Vestibular function
- Gait and mobility
- Age-related degeneration
- Home safety
- Pharmacological side effects

HANDS-ON LABS EXPAND YOUR REHAB TOOLBOX FOR FALL PREVENTION AND POST-FALL REHAB

Practice effective techniques you can use immediately to:

- Restore balance, mobility, and function
- Minimize fall impact and injury
- Treat dizziness and vertigo
- Improve multitasking, coordination, and gait
- Resolve vision problems that contribute to falls
- Boost cognition, memory, and focus
- Reduce environmental fall risks

HANDS-ON LABS INTEGRATE MULTIPLE APPROACHES FOR BETTER OUTCOMES

Practice combining:

- Balance and gait training
- Vestibular rehabilitation
- Gaze stabilization
- Multitasking interventions
- Musculoskeletal soft tissue techniques
- Graded motor imagery
- Home exercise programming
- Nutrition
- Environmental modification
- Safety reminders
- Orthotics and gait devices
- Clinical applications of neuroplasticity

Target Audience	Physical Therapists • Physical Therapist Assistants • Occupational Therapists Occupational Therapy Assistants • Nurse Practitioners • Nurses Nursing Home Administrators
-----------------	--

Live Seminar Schedule (both days)

7:30 Registration/Morning Coffee & Tea
8:00 Program begins
11:50-1:00 Lunch (on your own)
4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

HANDS-ON LABS DESIGN ROBUST, INNOVATIVE PLANS OF CARE FOR YOUR PATIENTS

Practice developing treatment strategies for high risk patients with specific impairments, including:

- Traumatic brain injury
- Stroke
- Multiple sclerosis
- Parkinson's disease
- Spinal cord injury
- Diabetes
- Pain
- Age-related changes

KEYS TO SUCCESSFULLY TREATING NONCOMPLIANT PATIENTS AND ENLISTING FAMILY SUPPORT

ARE YOU LEAVING MONEY ON THE TABLE?

- Coding and billing updates for fall prevention and post-fall rehab
- Justify rehab with the right progress measures and documentation
- Avoid denials and audits with these tips

CASE STUDIES PUT KNOWLEDGE TO PRACTICE

- Case study 1: Evaluate a client's home for extrinsic risk factors
- Case study 2: Apply advanced balance training and multitasking techniques
- Case study 3: Integrate visual testing and gaze stabilization
- Case study 4: Navigate pharmacological side effects and comorbidities
- Case study 5: Overcome barriers to effective strategy implementation

2-DAY

The Ultimate Guide to Fall Prevention

Fall-proof Your Patients with Today’s Best Practices

Whether your patients’ goals are to return to work, play with their grandkids, or travel the world, your hard work helps them progress toward their functional goals.

But one fall can severely set back progress and turn your patient’s life upside down, resulting in rapidly declining health, extended hospital stays, financial loss, fear, and isolation. Falls can often be predicted and prevented if you know what to look for, but all too often, clinicians are so focused on the injury or disability at hand that fall risks are overlooked -- until it’s too late.

Attend this intensive training course and learn how to help patients avoid falls while retaining the strength, balance, and mobility it takes to stay functionally independent.

Built on today’s best practices, this hands-on program will show you how to better predict and prevent falls with a comprehensive risk assessment that combines the best evaluations currently available. Expand your rehab toolbox for fall prevention and post-fall rehab with interventions you can use immediately. Design robust, innovative plans of care for high risk patients with specific impairments, from diabetes to Parkinson’s. And finally, learn how to develop an effective fall prevention program using tools and strategies that have helped countless patients leave their fear of falling behind.

Sign up today and confidently guide your patients to a fall-proof future!

Speaker

Shelly Denes, PT, C/NDT, is an expert in fall prevention with more than 25 years of experience treating patients with hemiplegia, neuromuscular disorders, traumatic brain injury, and spinal cord injuries. She has a special interest in advanced technology for helping patients move safely, and she has been involved extensively with neuroprosthetic devices, lower extremity orthotics, and exoskeleton robotics.

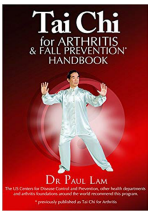

Ms. Denes travels nationally to present seminars on fall prevention and geriatric rehabilitation, and she is known for her dynamic, hands-on teaching style. She has also shared her insights with practicing professionals at annual physical therapy association meetings and through adjunct university work. Additionally, her expertise has been presented through expert witness work, both nationally and locally. Ms. Denes is a graduate of University of Michigan’s physical therapy program, and she earned her certification in Neurodevelopmental Treatment (NDT) from the Rehab Institute of Chicago.

Speaker Disclosures:
Financial: Michel Janet (Shelly) Denes has an employment relationship with the Center for Spinal Cord Injury Recovery. She receives a speaking honorarium from PESI, Inc.
Non-financial: Michel Janet (Shelly) Denes has no relevant non-financial relationship to disclose.

Objectives

- Discuss the latest advances in fall prevention and their implications for rehab.
- Demonstrate a comprehensive assessment, identifying and differentiating root causes of fall risk.
- Evaluate the most effective interventions available for reducing risk and restoring balance, mobility, and function.
- Integrate multiple approaches for better outcomes, including balance and gait training, vestibular rehabilitation, gaze stabilization, multitasking interventions, and environmental modification.
- Describe the most effective landing strategies to minimize impact.
- Develop an effective home exercise program.
- Design robust, innovative plans of care for high risk patients with various diagnoses.
- Discuss parameters for safely intensifying rehab.
- Determine effective strategies for helping noncompliant, difficult, or depressed patients become more engaged in their recovery.
- Review coding and billing updates for fall prevention and post-fall rehab.
- Outline key components of a successful fall prevention program.
- Describe strategies for effectively marketing a fall prevention program.

Tai Chi for Arthritis & Fall Prevention Handbook

By Dr. Paul Lam

The Tai Chi for Arthritis program outlined in this informative handbook has helped millions of people - both with and without arthritis - to find relief from pain, improved balance and health, and a better quality of life within a short time. This handbook pairs perfectly alongside Dr Lam's Tai Chi for Arthritis DVD, and will empower learners to improve their health and wellness.

Mindful Chair Yoga
50+ PRACTICES FOR ALL AGES

By Mayuri Gonzalez and Jennifer Cohen Harper, MA, E-RCYT

Mindful Chair Yoga is a powerful way to harness key benefits of the practice: become stronger, more flexible, navigate challenging situations without becoming overwhelmed, rest when you need it, and much more. Each card includes a reflection question to help engage fully with the activities. This easy-to-use card deck contains 50+ practices that can support everyone - children, teens and adults - in living a happier, healthier life.

HAVE A SEMINAR IDEA? A MANUSCRIPT TO PUBLISH?

The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact Orion Tarpley at otarpley@pesi.com or 715-855-5262.

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

Nurses, Nurse Practitioners, and Clinical Nurse Specialists: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 12.6 contact hours. Partial contact hours will be awarded for partial attendance.

California Nurses: PESI, Inc. is a provider approved by the California Board of Registered Nursing, Provider Number 17118 for 12.5 contact hours. Full attendance is required. No partial contact hours will be issued for partial attendance.

Nursing Home Administrators: This educational offering has been reviewed by the National Continuing Education Review Service (NCERS) of the National Association of Long Term Care Administrator Boards (NAB) and approved for 12.5 clock hours and 12.5 participant hours. Full attendance is required; no partial credits will be offered for partial attendance.

Occupational Therapists & Occupational Therapy Assistants: PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance at this course qualifies for 12.5 contact hours or 1.25 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

Physical Therapists & Physical Therapist Assistants: This activity consists of 12.5 clock hours of instruction that is applicable for physical therapists. CE requirements for physical therapists vary per state/jurisdiction. Please retain the certificate of completion that you receive and use as proof of completion when required.

California Physical Therapists & Physical Therapist Assistants: PESI, Inc. is recognized by the Physical Therapy Board of California as an approval agency to approve providers. This lecture qualifies for 12.5 continuing competency hours.

Other Professions: This activity qualifies for 760 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.
