

Outline

Why Not Medication?

- Useful as a short-term tool
- Concerns with long-term use: Effects on the brain

ADHD and the “Immature” Brain

- Brain imaging evidence of ADHD
- Research regarding ADHD brain development
- Frontal lobes mature more slowly in the ADHD brain
- Excess theta brainwaves
- Implications for treatment

Movement-Based Strategies

- Wake up an underaroused ADHD brain
- Hyperactivity as an adaptive mechanism
- The impact of play and exercise on the brain
- Role of rhythm and timing training
- Integrated movement systems for ADHD

Frontal Lobe/Working Memory Strategic Tools

- Use it or lose it: Increase memory, attention and focus
- Games for impulse control and working memory
- Computerized cognitive training programs
- Meditation and mindfulness for ADHD
- Neurofeedback

Diet and Nutrition

- The impact of sugars, fats, proteins and water
- Diet and dopamine
- Omega 3-6-9: What you need to know for brain health
- Multivitamins/minerals: Do they make a difference?
- Gluten, food additives and pesticides

ADHD and Nervous System Overstimulation

- “Overaroused” subtype of ADHD
- Stress, anxiety and ADHD: the connection
- Breathwork and movement for nervous system calming
- Heart rate variability biofeedback
- Art therapy techniques to quiet and focus the brain

Environmental Influences

- Video games and Social Media
- Sleep deprivation
- Same symptoms as ADHD
- Strategies to help insomnia
- Environmental toxins: lead, phthalates, pollution
- The impact of time in nature on ADHD symptoms

Limitations of the Research and Potential Risks

Live Seminar Schedule

7:30 Registration/Morning Coffee & Tea
8:00 Program begins
11:50-1:00 Lunch (*on your own*)
4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

Target Audience

Counselors • Social Workers • Psychologists
Marriage and Family Therapists
Speech-Language Pathologists • Teachers
School Administrators • Occupational Therapists
Occupational Therapy Assistants • Nurses
Other Helping Professionals who Work with Children

Objectives

1. Articulate the relationship between the frontal lobe of the brain and ADHD symptomology for the purpose of client psychoeducation.
2. Determine the impact of movement and exercise on the reduction of ADHD symptoms as it relates to assessment and treatment planning.
3. Implement treatment interventions for improving impulse control and working memory in clients.
4. Analyze the influence of diet and nutrition on ADHD symptoms in relation to assessment and treatment planning.
5. Develop clinical strategies to calm the nervous system of clients diagnosed with ADHD.
6. Consider the clinical implications of environmental influences on ADHD symptoms in clients.

Changing the ADHD Brain: Moving Beyond Medication

Many persons diagnosed with ADHD prefer not to take medication. There are various reasons for this including side effects and concerns with long-term use. In this seminar, you will learn more about these reasons, as well as alternative interventions for ADHD.

Looking at ADHD from a developmental perspective, we will consider reasons for the apparent increase in ADHD diagnoses over the past two decades. By understanding the way the brain works in ADHD, you will be able to better identify a variety of strategies to significantly impact the nervous system and positively influence symptoms of ADHD in your clients.

Not only will you walk away with information about some of the most common non-medication interventions for ADHD such as computerized cognitive training, mindfulness meditation and neurofeedback, you will also learn a variety of practical strategies that can be implemented immediately and at low cost.

We will navigate the vast research on exercise, movement, diet, sleep, disruptive technologies, supplements and the impact of the environment on ADHD, summarizing the findings and applying the information to “real life.” You will leave this seminar with the tools and knowledge to develop a holistic approach to working with adults and children with ADHD.

Speaker

David Nowell, Ph.D., is a clinical neuropsychologist in private practice in Northborough, Massachusetts. He offers consultations to patients on an inpatient rehabilitation unit and is an adjunct instructor in neuropsychology to graduate students in the Clark University psychology program. He serves as a physician advisor with the University of Massachusetts Medical School Disability Evaluation Service where he was the former clinical director of the Learning Disability Assessment Program. Dr. Nowell writes a popular blog at Psychology Today on motivation and time management, and speaks internationally to clinicians on such topics as executive functioning, non-medication management of ADHD, and applying findings from Positive Psychology.

Speaker Disclosures:
Financial: David Nowell maintains a private practice. He receives a speaking honorarium from PESI, Inc.
Non-financial: David Nowell has no relevant non-financial relationship to disclose.

This course counts toward the educational hours required for certification as an ADHD Certified Clinical Services Provider (ADHD-CCSP).

Visit adhdcert.com for the full certification requirements.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a DVD or CD/digital manual package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

Seminar on DVD or CD Package: You can purchase a self-study package on the subject. You will receive a set of CDs or DVDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesi.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

Have a seminar idea? A manuscript to publish? The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact Kate Sample at ksample@pesi.com or call 715-855-5260.

PESI Inc. is proud to offer this seminar (at these locations only) *free of charge* (on live seminar tuition) for veterans and active duty military personnel. *Limited seats available; advance online registration required.*

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

Counselors (NBCC): Changing the ADHD Brain: Moving Beyond Medication has been approved by NBCC for NBCC credit. PESI, Inc. is solely responsible for all aspects of the program. NBCC Approval No. SP-3237. PESI is offering this activity for 6.5 clock hours of continuing education credit.
