

2-Day Intensive Mindfulness Training Course

Attend this in-depth Mindfulness Training Course to develop a comprehensive, step-by-step approach to help your clients incorporate mindfulness practices into their daily routine and help you provide greater healing for your clients who suffer from:

- Trauma
- Depression
- Relationship challenges
- Toxic habits or beliefs

This course will provide you with detailed, hands-on instruction on incorporating mindfulness into your treatment plans for the specific mental health disorders you see in your office each day. Full of structured and experiential exercises, interactive discussions, and case studies, you will take away practical strategies and reproducible handouts that are instantly usable upon your return to the office.

From intervening in the downward spiral of depression and anxiety to cultivating safety and groundedness in traumatized clients, you'll learn the art of applying mindfulness insights, skills and techniques to a variety of clinical populations.

Better still, you'll have the opportunity to practice the application of what you've learned under our instructor's skilled supervision.

Sign up for this mindfulness training course today and leave this transformational experience armed with the skills and tools you need to enhance your very next session.

Don't miss out, this course will fill up fast!

**Certificate of completion
will be awarded at the end of the course.**

Outline

MASTER THE CORE SKILLS OF MINDFULNESS

Treatment Concepts

Introduction of mindfulness to clients
Mindfulness as self-directed neuroplasticity
Mindfulness as a skill-based path
Reconsolidation of neural networks through mindfulness practice

Experiential exercise: self-regulation techniques

Strengthening Therapeutic Presence

Benefits of therapeutic presence: presence, attunement, resonance, trust
Stabilize the mind: the foundation of focus
Self-regulation: the foundation of settledness
Spaciousness: the foundation of openness

Five Core Skills of Mindfulness

Clarify, set and re-affirm intention
Cultivate witnessing awareness: metacognition
Stabilize attention
Strengthen self-regulation
Practice loving-kindness for self and others
Experiential exercise: stability of attention and awareness

Neuroscience and Mindfulness

Effective drivers of neuroplasticity
Interpersonal neurobiology: importance of early experiences
Formation of mental models: core negative beliefs
Neuroception and the operation of the brain's survival mechanisms
Explicit and implicit memories
Adaptive safety strategies: negative side effects
Experiential exercise: cultivate an inner refuge

Mindfulness Practices

Themes in beginning mindfulness practice
Am I focused or distracted?
Am I settled/grounded or tight/churning?
Mindful transitions: a practice for new clients
Stop-breathe-reflect-choose practice
Development of client self-talk, scripts and mantras
Positive visualization practice
Cultivate a new vision of self: transform core negative beliefs

TRAUMA, ANXIETY, DEPRESSION, RELATIONSHIPS, ANGER, STRESS AND SEX

Mindfulness for Trauma

Cultivate safety and groundedness
Retrain the dysregulated nervous system
Experiential exercise: positive visualization

Mindfulness for Anxiety

Witness the anxious mind
Get unstuck from anxious rumination
Experiential exercise: self-regulation practices for anxiety

Mindfulness for Depression

Transform core negative beliefs that power depression
Cultivate motivation and action
Experiential exercise: develop behavioral plans with the client

Mindfulness for Relationships

Clarify intentions that work in relationships
Transform unhealthy patterns
Experiential exercise: cultivate positive experiences/exchanges

Mindfulness for Anger

Understand the source of anger energy
Identify the anger storm
Clarify the practice when anger arises
Experiential exercise: rehearsal of the Stop-Breathe-Reflect-Choose practice

Mindfulness for Stress

Educate the client about the impact of stress
Change the stress reaction through practice
Experiential exercise: strengthen awareness of stress response, shifting to relaxation response

Mindfulness for Sex

Create conditions for healthy and mutually satisfying sex
Open to the full power of sexual intimacy

Mindfulness In-Session

Avoid compassion fatigue
Approach each session as meditative practice
Counsel "in the flow"
Experiential exercise: path to enjoying our work more meditation practice

Research, Limitations and the Potential Risks of Mindfulness in Treatment

Current state of research on mindfulness
Limits of the current research
Mindfulness-based treatments – potential risks and limitations
The importance of client evaluation
Practices beyond your training and experience
