2-Day Dialectical Behavior Therapy (DBT) **Intensive Training Course**

Dialectical Behavior Therapy (DBT) is an empirically validated approach for working with mental health, chemical dependency, and complex co-morbidity. Designed to empower clients to establish mindfulness, distress tolerance, emotional regulation, and interpersonal effectiveness, DBT assists clinicians in treating clients with emotional problems, suicidal, self-harm, and selfsabotaging urges and behaviors, and challenging interpersonal styles.

This course counts towards the educational requirement when applying for **Certification in Dialectical Behavior Therapy through Evergreen Certification** Institute (EVGCI)

Attend this 2-day intensive training course and receive a detailed understanding and foundation of the skills of Dialectical Behavior Therapy (DBT) as applied to clients with mental health and chemical dependency issues.
