

2-DAY

Vision Therapy Intensive Training Course

Upgrade Your Skills & Boost Referrals with Today's Best Practices

Whether your patients’ goals are to return to work, play with their grandkids, or travel the world, your hard work helps them progress toward their functional goals.

But when vision problems distort your patient’s world, it can feel like you’re working twice as much for half the progress. Falls, mobility deficits, isolation, and dependence on others can lead to serious, costly setbacks. And problems performing exercises and activities often result in avoidance over time, severely limiting functional outcomes.

It doesn’t have to be this hard.

Learn the latest vision therapy techniques in this hands-on course, and discover a powerful intervention framework that has helped countless therapists and their patients overcome these exact same issues for years. Whether your patients are adults with head injuries or stroke survivors with visual perception problems, you’ll transform your practice with innovative interventions that help patients adapt to visual impairments, take charge of their recovery, and resume functional activities they might have otherwise abandoned.

Register now, and discover new ways to accelerate progress for outcomes that will earn you referrals.

Speaker

Sandra Stalemo, OTR/L, is an expert in vision therapy with over 37 years of experience guiding patients with vision and neurological impairments toward functional independence in a variety of outpatient and inpatient therapy settings.

Ms. Stalemo developed a passion for vision therapy after witnessing firsthand its impact on her daughter, who had been diagnosed with binocular vision disorder. In the years since then, Ms. Stalemo has trained and worked closely with neuro-optometrists to bridge the gap between diagnosis and treatment in functional settings, and she went on to develop a leading vision rehabilitation program at Sanford Health. She is now a national speaker on vision and neurological rehabilitation topics, known for her ability to break down complex concepts into practical, everyday solutions.

Speaker Disclosures:
Financial: Sandra Stalemo receives a speaking honorarium from PESI, Inc.
Non-financial: Sandra Stalemo has no relevant non-financial relationship to disclose.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a self-study package on the subject (CE credits may be available), a certificate to attend another seminar, or receive a tuition refund less a \$60 cancel fee. Substitutions are permitted at any time.

Seminar on DVD or Digital Format: You can purchase a self-study package on the subject and you and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. If purchasing the digital format, you will receive an emailed order confirmation which contains your login instructions to access the recorded seminar, electronic handouts and online post-test. Order today by using the order form on this brochure or by calling 800-844-8260.

Objectives

- Identify the latest advances in vision therapy
- Develop a comprehensive assessment framework, identifying the root causes of vision impairments and related functional deficits
- Discuss how vision integrates with cognition for higher level tasks
- Demonstrate the most effective interventions available for managing vision impairments, restoring function, and improving safety
- Determine which treatment techniques will benefit your patient
- Explain how to progress the difficulty and integrate functional tasks
- Outline interdisciplinary strategies that combine multiple interventions for better outcomes
- Evaluate real-world applications for common diagnoses and conditions
- Apply the assessments and interventions discussed in this seminar to a series of interactive case scenarios
- Create appropriate functional goals and progress measures
- Compare cost-effective tools for vision therapy
- Review the keys to developing a successful vision therapy program

Live Course & Webcast Schedule

both days
(Times Listed in Central)

7:30 Registration/Morning Coffee & Tea
8:00 Program begins
11:50-1:00 Lunch (on your own)
4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

Course Content

HOT TOPICS AND INNOVATIONS

- Current concepts in visual rehabilitation
- Practical applications of the latest research
- Today's top tech
 - o Bioness BITS
 - o Dynavision
 - o Innovative apps

CONFIDENTLY IDENTIFY THE ROOT CAUSE OF VISION IMPAIRMENT

- Discover a comprehensive framework for evaluating symptoms, including:
 - o Mobility, gait, and posture problems
 - o Falls, dizziness, and balance issues
 - o Poor coordination/executive function
 - o Ocular-motor deficits
 - o Visual processing deficits
 - o Post trauma vision syndrome
 - o Cranial nerve palsies
 - o Blurred or double vision
 - o Photophobia
 - o Difficulty maintaining visual attention to task
 - o Limited depth perception
 - o Poor compensation for field cut
 - o Motion sensitivity

• Hands-on lab

UPGRADE YOUR VISION THERAPY TOOLBOX

- Innovative interventions you can use immediately to:
 - o Prevent falls, dizziness, and motion sensitivity
 - o Address mobility, posture, and gait problems
 - o Improve near/far focusing for reading, written communication, and close work
 - o Promote visual motor coordination and visual processing
 - o Restore functional independence, self-care, and performance of ADLs
 - o Boost scanning skills for locating objects
 - o Increase attention to neglected side
 - o Expand visual fields and compensate for field cuts
 - o Enhance depth perception and peripheral awareness
 - o Reduce headaches, eye strain, and double vision
 - o Decrease agitation and photophobia

• Hands-on lab

COMBINE MULTIPLE INTERVENTIONS MORE EFFECTIVELY FOR BETTER OUTCOMES

- Synergistic strategies for effectively integrating:
 - o Functional compensation strategies
 - o Ocular motor drills
 - o Spot patching
 - o Prism adaptation
 - o Visual accommodations
 - o Visual field scanning
 - o Binocular vision exercises

• Hands-on lab

REAL-WORLD APPLICATIONS FOR COMMON DIAGNOSES AND CONDITIONS

- Neurological impairments
 - o Stroke
 - o Traumatic brain injury
 - o Multiple sclerosis
 - o Brain tumor
 - o Parkinson's
- Low vision
 - o Vision loss and blindness
 - o Macular degeneration
 - o Glaucoma
 - o Contrast sensitivity
- Visual hallucinations
 - o Charles Bonnet syndrome

• Hands-on lab

DESIGN SOLUTIONS USING YOUR NEW VISION THERAPY SKILLS

- Case scenario: Correctly identify the root cause of impairment
- Case scenario: Problem solve a complex vision impairment and develop an effective treatment plan
- Case scenario: Identify vision impairments that can cause behavioral problems.
- Case scenario: Revise a standard plan of care for a stroke survivor
- Case scenario: Overcome barriers to effective strategy implementation

DEVELOP A THRIVING VISION THERAPY PROGRAM

- Core components of an effective vision therapy program
- Cost effective tools to use during initial setup
- Moderate expense and capital budget items to add to your program
- Keys to generating vision therapy referrals

MAXIMIZE YOUR REIMBURSEMENT

- Coding and billing updates for vision therapy
- Justify therapy with the right goals and progress measures
- Avoid denials and audits with these tips

Live Seminar Continuing Education Credit Information

Credits listed below are for full attendance at the live event only. After attendance has been verified, pre-registered attendees will receive an email from PESI Customer Service with the subject line, "Evaluation and Certificate" within one week. This email will contain a link to complete the seminar evaluation and allow attendees to print, email or download a certificate of completion if in full attendance. For those in partial attendance (arrived late or left early), a letter of attendance is available through that link and an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "LIVE SEMINAR SCHEDULE" on this brochure for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact cepesi@pesi.com or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

Nurses, Nurse Practitioners, and Clinical Nurse Specialists: PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 12.6 contact hours. Partial contact hours will be awarded for partial attendance.

Occupational Therapists & Occupational Therapy Assistants: PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance at this course qualifies for 12.5 contact hours or 1.25 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

Physical Therapists & Physical Therapist Assistants: This activity consists of 12.5 clock hours of instruction that is applicable for physical therapists. CE requirements for physical therapists vary per state/jurisdiction. Please retain the certificate of completion that you receive and use as proof of completion when required.

Louisiana Physical Therapists & Physical Therapist Assistants: This course was reviewed by the Louisiana Physical Therapy Board and awarded 12.5 clinical contact hours.

Other Professions: This activity qualifies for 760 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.

Neuro Notes: Clinical Pocket Guide

By Claudia Fenderson, PT, ED.D., PCS and Wen Ling, PT, PH.D.

- Wipe-Free History and Assessment Forms
- Organized by Preferred Practice Patterns
- First Tab Cross-References Disorders to Guide Practice Patterns
- Covers Both Pediatric & Adult Content
- Common Neuromuscular Conditions
- Red Flag Alerts

Whatever the practice setting—acute care, rehabilitation, outpatient, extended care, or in a school—turn to this handy pocket guide to the neurological examination. Small in size, but not in content, it covers all of the common neuromuscular conditions, disorders, and diseases you might encountered in patients throughout their lifespans. A spiral binding, thumb tabs and nearly 240 illustrations insure you can find just what you're looking for. Waterproof, reusable pages let you record clinical data and then wipe the pages clean with alcohol.

Optimizing Cognitive Rehabilitation

By McKay Moore Sohlberg, PHD, CCC-SLP & Lyn S. Turkstra, PHD, CCC-SLP

Rehabilitation professionals face a key challenge when working with clients with acquired cognitive impairments: how to teach new skills to individuals who have difficulty learning. Unique in its focus, this book presents evidence-based instructional methods specifically designed to help this population learn more efficiently. The expert authors show how to develop, implement, and evaluate an individualized training plan. They provide practical guidelines for teaching multistep procedures, cognitive strategies, the use of external aids, and more. Purchasers of this title can download 19 sample worksheets and forms; blank forms provided by the publisher and are a convenient 8 1/2" x 11" size.

Live Webcast Details and Live Webcast Continuing Education Credit Information

Join us on March 12 & 13, 2020, for this live, interactive webcast! Invite your entire office and, like a live seminar, "attend" the webcast at its scheduled time. It's easy and convenient! Webcasts provide everything you need for a premier educational experience including real-time video and audio of the speaker. See and hear the speaker, ask questions via email and have them answered during the webcast, and watch the slides all on your computer screen. Seminar materials are available for download. One CE certificate is included. Certificates of Completion can be printed after completing and passing the on-line post-test evaluation. Additional certificates are available for \$79.99 USD per participant. Please see "live seminar schedule" for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch. For CE information for the live webcast, please visit: www.pesirehab.com/webcast/77456
