IFS Step-by-Step

Step 1: Using Meditative Processes to Identify and Connect with a Target Part

Differentiate the person from the symptom
Access a state of compassion and curiosity essential for healing
Establish a relationship with the target part
Learn the history and benevolent intention behind the symptom

Step 2: Working with Protective Parts

Facilitate internal attachment work
Learn and address the fears/concerns of protective parts
Establish a trusting and appreciative relationship with proactive and reactive protectors
Gain permission to proceed to healing

Step 3: Healing the Traumatic Wound

Develop a compassionate, connected relationship with the wounded part
Witness the pain rather than re-experience it: Learn to be “with,” not “in,” to avoid re-traumatization
Retrieve the wounded part from “trauma time”
Release/unburden thoughts, feelings and beliefs
Integrate change into the system and use maintenance and troubleshooting strategies

Bringing IFS Concepts to Life

Experiential exercise
Video demonstration of IFS therapy with a real client
Step-by-step commentary to solidify understanding of techniques illustrated in the video session

INTERNAL FAMILY SYSTEMS *Therapy*

Step-by-Step Procedures for Healing Traumatic Wounds and Alleviating Anxiety, Depression, Trauma, Addiction and More

After decades of clinical innovation and recent scientific research, the empirically validated **Internal Family Systems (IFS) model has been shown to be effective at improving clients’ general functioning and well-being.** This effective model provides clinicians with procedures for helping clients with the most challenging mental health profiles to heal the wounded, burdened, and traumatized parts of their systems.

The IFS model provides a compassionate, respectful, non-pathologizing approach to understanding the organization and functioning of the human psyche.

The transformative IFS approach embraces and celebrates the natural multiplicity of the mind. Its assumption is that every part of the system has good intention and valuable resources allows clinicians to approach even the most troubling of “symptoms” with compassion and respect. IFS offers therapists a powerful and effective set of tools for empowering clients with a wide range of clinical profiles to heal the wounded and burdened parts of their internal systems, resulting in:

- a way to enter clients’ inner ecology without the overemphasis on containment and stabilization
- symptom reduction and improved functioning for clients
- deep self-healing within even the most troubled clients

IFS is a powerful treatment modality. Once you experience it, you will want to incorporate it into your practice.

Through instruction, video demonstration, and experiential exercises, Alexia D. Rothman, Ph.D., Certified IFS therapist and colleague of Dr. Richard Schwartz (founder of IFS) will show you step-by-step how to apply the most effective, empirically validated IFS interventions to help your clients connect with and understand their conflicting parts to facilitate deep, lasting healing.

*Hailed by **Dr. Bessel van der Kolk**, the world’s leading expert in trauma, as the treatment method that all clinicians should know to treat clients effectively.*
