

Outline

How vision deficits create unseen therapy roadblocks with...

- Neurological disorders
 - o Stroke
 - o TBI
 - o Parkinson's
- Balance, posture and gait
- ADLs
- Reading, communication and cognition

How to combine multiple approaches more effectively for better outcomes

- Functional compensation strategies
- Visual accommodations
- Visual field scanning
- Binocular vision exercises
- Optical lenses
- Prism adaptation
- Cataract surgery

LAB

Spot vision deficits early to avoid progress plateaus

- Vision anatomy and its impact on function
- Understanding your patient's vision complaints and history
- Comprehensive vision assessment, step-by-step
- Adapt and improve therapy using assessment findings

LAB

Design advanced, innovative plans of care for your patients

- Practice effective strategies for resolving functional deficits caused by:
 - o Blindness
 - o Macular degeneration
 - o Glaucoma
 - o Diabetic retinopathy
 - o Presbyopia
 - o Retinitis pigmentosa
 - o Double vision
 - o Cataracts
 - o Visual field cuts

LAB

Game-changing vision rehab interventions

- Practice proven techniques you can use immediately to:
 - o Increase safety during ambulation and transfers
 - o Reduce falls
 - o Reduce dizziness and motion sensitivity
 - o Improve posture and gait
 - o Improve compliance with home exercise programs and prescriptions
 - o Improve performance of ADLs
 - o Improve reading and communication
 - o Increase functional independence
 - o Improve depth perception
 - o Eliminate double vision
 - o Improve peripheral awareness
 - o Expand visual fields

CASE STUDIES

Put knowledge to practice

- Case study 1: Correctly select the root cause of impairment
- Case study 2: Problem solve a complex vision impairment and develop an effective treatment plan
- Case study 3: Navigate pharmacological side effects and comorbidities
- Case study 4: Adapt a standard plan of care for a legally blind patient
- Case study 5: Overcome barriers to effective strategy implementation

Maximize your reimbursement

- Coding and billing updates for vision rehabilitation
- Justify therapy with the right progress measures
- Avoid denials and audits with these tips

TARGET AUDIENCE

Physical Therapists
Physical Therapist Assistants
Occupational Therapists
Occupational Therapy Assistants
Speech Language Pathologists
Athletic Trainers
Nurses
Nurse Practitioners

Live Webcast Schedule

(Times listed in Central)

8:00 Program begins

11:50-1:00 Lunch Break

4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

A Non-Profit Organization Connecting Knowledge With Need Since 1979

Innovative Vision Rehab Strategies for PTs, OTs, and SLPs

When your patient wins the day, you win the day. And in those moments, you're unstoppable.

But when your patient has vision deficits, even your most tried-and-true therapy protocols can quickly go off the rails, dramatically limiting your effectiveness and halting progress in a variety of frustrating ways:

- Poor performance of tasks/exercises
- Avoidance of ADLs
- Increased functional dependence
- Noncompliance with home programs
- Reading/communication problems
- Limited hand-eye coordination
- Gait and posture dysfunction
- Frequent falls

Here's the good news. Vision deficits don't have to limit you or your patients ever again.

Join your colleagues at this upcoming seminar and discover a powerful framework for vision rehabilitation that has helped countless therapists and their patients overcome these challenges. Whether your patients are adults with diabetic retinopathy or stroke survivors with vision perception problems, you'll transform your practice with innovative interventions that accelerate progress for outcomes that will earn you referrals.

Speaker

Robert Constantine, OTR/L, is an expert in vision rehabilitation with over 20 years of clinical practice guiding patients with brain injury, stroke, and developmental delays to functional independence. With experience in home health and skilled nursing contexts, he spent 9 years as the clinical specialist in brain injury at the West Florida Rehabilitation Institute where he developed a passion for evidenced-based treatment, sharing information and the functional effects of the visual system. Beginning in 2013, he enjoyed a 3-year tenure at an optometry practice where he learned techniques working closely with low vision, pediatric and adult optometrists. He has completed Clinical Level 1 and 2 training offered by the Neuro-Optometric Rehab Association, which brings together the tools of optometry, occupational and physical therapy to improve outcomes for patients with neurological diagnoses.

Because of his extensive vision training, he also works with the High Performance Vision Associates, a national group of optometrists that offer sports vision screenings to elite athletes. He developed specialized Drag Racing Glasses and has worked with NHRA Sportsman and Professional Drag Racers. He continues to provide vision rehabilitation services to pediatric and adult patients at the Pearl Nelson Center and Kindred at Home in Pensacola, Florida.

Speaker Disclosures:

Financial: Robert Constantine has an employment relationship with Pearl Nelson Center. He receives a speaking honorarium from PESI, Inc.

Non-financial: Robert Constantine has no relevant non-financial relationship to disclose.

Objectives

1. Identify the latest advances in vision rehab and their implications for PTs, OTs, and SLPs.
2. Demonstrate a comprehensive assessment, identifying and differentiating root causes of vision deficits and related functional impairment.
3. Demonstrate the most effective interventions available for managing vision deficits, restoring function, and improving safety.
4. Outline multidisciplinary strategies that combine multiple interventions for better outcomes.
5. Design effective, innovative plans of care for a wide range of vision diagnoses and functional impairments.
6. Apply the assessments and interventions discussed in this seminar to a series of interactive case scenarios.

Group training *made easy!*

Professional content, expert presenters, CE credit, training materials and more. www.pesirehab.com/inhouse

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a self-study package on the subject (CE credits may be available), a certificate to attend another live webcast, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

On-Demand or DVD: You can purchase a self-study package on the subject and you and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. If purchasing the digital format, you will receive an emailed order confirmation which contains your login instructions to access the recorded seminar, electronic handouts and online post-test. Order today by using the order form on this brochure or by calling 800-844-8260.

Have a seminar idea? A manuscript to publish? The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact **Celestee Roufs** at croufs@pesi.com or call **715-855-5229**.
