

Course Content

FALL RISK MITIGATION ESSENTIALS

- The latest advances in fall prevention
- The most current changes from the CDC
- Intrinsic risk factors
- Environmental extrinsic risk factors
- Medications and substance use

COMPREHENSIVE FALL RISK ASSESSMENTS:

Predict and Prevent Falls with Tools for Evaluating Your Patients'...

- Balance
- Visual-spatial function
- Sensory-motor integration
- Proprioception
- Vestibular function
- Gait and mobility
- Age-related degeneration
- Home safety
- Pharmacological side effects

REDUCE FALL RISK AND RESTORE MOBILITY AND FUNCTION:

Interventions, Assistive Technologies and Techniques to...

- Restore balance, mobility and function
- Minimize fall impact and injury
- Treat dizziness and vertigo
- Improve multitasking, coordination and gait
- Resolve vision problems that contribute to falls
- Boost cognition, memory and focus
- Reduce environmental fall risks
- Orthotics, gait devices and assistive technology for fallers

IMPROVE STRENGTH, COORDINATION, BALANCE AND SAFETY:

Multifactor Approaches and Exercise Programs for Fall Reduction

- Vestibular rehabilitation
- Strength training programs
- Quick tips to recognize abnormal gait patterns in fallers
- Balance assessment tools
- Nutrition
- Hydrotherapy interventions

HIGH-RISK PATIENT SOLUTIONS:

New Ideas and Innovative Plans to Protect Patients from Injury

- Older adults
- Impaired vision
- Patients using oxygen
- TBI and stroke
- Multiple Sclerosis
- Parkinson's Disease
- Diabetes
- Pain

PATIENT EDUCATION TOOLBOX:

Best Practices for Building Understanding and Engagement for Improved Outcomes

- CDC – STEADI initiative algorithm
- The American Geriatric Society updated Beers Criteria
- Evaluate your patient's understanding of fall prevention
- Checklists
- Body mechanics
- Car and floor transfers
- Fall recovery techniques
- Safe landing strategies
- Best practices for non-compliant patients

DEVELOPING A SUCCESSFUL FALL PREVENTION PROGRAM FOR YOUR FACILITY

- Evidence based programs
- STEADI toolkit
- Marketing and partnership strategies
- Coding and billing updates

PRACTICE AND CASE STUDIES

- Evaluate a client's home for risk factors
- Apply advanced balance training and multitasking techniques
- Integrate visual testing and gaze stabilization
- Navigate pharmacological side effect

Target Audience

Physical Therapists • Physical Therapist Assistants • Occupational Therapists
Occupational Therapy Assistants • Nurse Practitioners • Nurses
Nursing Home Administrators

Live Webcast Schedule (both days) (Times listed in Eastern)

8:00 Program begins
11:50-1:00 Lunch Break
4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

A NON-PROFIT ORGANIZATION CONNECTING KNOWLEDGE WITH NEED SINCE 1979

2-DAY **Fall Prevention Specialist Certification Course:**
Fall-proof Your Patients with Today's Best Practices

One fall can turn your patient's life upside down, resulting in rapidly declining health, extended hospital stays, financial loss, fear and isolation.

Whether you're an OT, PT, nurse or anyone who works in a rehab or healthcare setting one fall can turn your life upside down as well; erasing the progress your clients have made toward their functional goals, causing you stress as you worry for your patient's well-being, and leaving you facing the nerve-wracking implications for the reputation of both you and your facility.

Attend this live training, learn how to help patients avoid falls while retaining the strength, balance and mobility it takes to stay functionally independent and become a **Certified Fall Prevention Specialist through Evergreen Certifications** (see evergreencertifications.com).

More than just an overview, this intensive Certification Course will offer practical solutions to some of the most challenging real-life situations you face with patients who fall or are at risk of falling. Built on today's best practices, this program will provide you exactly what you need so you can...

- Better predict and prevent falls with effective fall prevention tools and strategies
- Safely build strength, coordination and balance in fallers
- Restore mobility and function with interventions and assistive technologies
- Build your professional reputation as a go-to resource on fall prevention

Best of all, upon completion of this live training, you'll be eligible to become a **Certified Fall Prevention Specialist (CFPS)** through Evergreen Certifications. Certification lets colleagues, employers, and caregivers know that you've invested the extra time and effort necessary to understand the complexities of fall prevention. Professional standards apply. Visit evergreencertifications.com/cfps for details.

Speaker

Shelly Denes, PT, CFPS, C/NDT, is an expert in fall prevention and neuro-rehab with more than 25 years of experience treating patients with hemiplegia, neuromuscular disorders, TBI, and SCI. She has a special interest in advanced technology and has been involved extensively with neuroprosthetic devices, lower extremity orthotics, and exoskeleton robotics.

Ms. Denes travels nationally to present seminars on fall prevention and geriatric rehabilitation, and she is known for her dynamic, hands-on teaching style. She has also shared her insights with practicing professionals in varying settings. Additionally, her expertise has been presented through expert witness work, both nationally and locally. Ms. Denes is a graduate of University of Michigan's PT program, and she earned her certification in Neurodevelopmental Treatment for Adult Hemiplegia (NDT) from Rehab Institute of Chicago. She is also earned certification as a Fall Prevention Specialist with Evergreen Certifications and sits on their advisory board.

Speaker Disclosures:
Financial: Michel Janet (Shelly) Denes has an employment relationship with the Center for Spinal Cord Injury Recovery. She receives a speaking honorarium from PESI, Inc.

Non-financial: Michel Janet (Shelly) Denes has no relevant non-financial relationship to disclose.

Objectives

- Integrate the latest advances in fall prevention and the most current changes from the CDC into your practice.
- Employ comprehensive assessments to identify issues with balance, visual-spatial functioning, proprioception and other root causes of fall risk.
- Assess available interventions so you can choose the appropriate ones for safely restoring balance, mobility and function in patients with varying root causes of fall risk.
- Integrate multiple approaches and exercise programs for better outcomes with fallers and patients at high-risk of falling.
- Determine the safest landing strategies that your patients can employ to reduce the impact of falls.
- Develop home exercise programs for patients so they can build strength and coordination.
- Utilize tips to recognize abnormal gait patters in fallers.
- Employ ideas and plans that will protect older adults, patients using oxygen, and others at high-risk of falling from injury.
- Evaluate parameters for safely intensifying rehab with patients who fall.
- Apply best practices for educating and engaging non-compliant patients to reduce their risk of falling.
- Investigate evidence-based fall prevention programs that can be used in your facility.
- Evaluate home-based risk factors that contribute to falls and determine how these risk factors can be mitigated.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a self-study package on the subject (CE credits may be available), a certificate to attend another live webcast, or receive a tuition refund less a \$30 cancel fee. Substitutions are permitted at any time.

Digital Seminar or DVD: You can purchase a self-study package on the subject and you and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. If purchasing the digital format, you will receive an emailed order confirmation which contains your login instructions to access the recorded seminar, electronic handouts and online post-test. Order today by using the order form on this brochure or by calling 800-844-8260.

Have a seminar idea? A manuscript to publish? The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact **Missy Cork** at mcork@pesi.com or call **715-855-6366**.

Online Learning Made Easy!

Join us on December 15 & 16, 2020, for this live, interactive webcast!

Connect, collaborate and learn with our online seminars! It's easy, webcasts provide everything you need for an online educational experience including real-time video and audio, view slides on your computer screen, and the ability to ask your questions. Seminar materials are available for download. Bonus, registration includes 3 month access to the on-demand seminar for you to watch again!

It's easy and convenient!

Register now! pesirehab.com/webcast/84132

Train your whole organization

Purchase one full-price registration → train unlimited additional attendees for only \$79.99 each

- Watch and participate in real time
- One CE Certificate is included
- **BONUS!** Receive free on-demand access for 3 months with registration!
