Objectives

1. Demonstrate effective use of the six core processes of Acceptance and Commitment Therapy (ACT) to help clients advance psychological flexibility.
2. Illustrate clinical techniques for increasing psychological flexibility in clients using ACT.
3. Utilize acceptance approaches with avoidance problems to strengthen a client’s willingness to have emotions.
4. Implement clinical skills to help client effectively handle automatic cognitions.
5. Utilize effective ACT exercises in therapy to aid clients with developing new skills to engage in the present moment and move past struggles.
6. Assess and clarify a client’s values in order to develop an effective treatment plan and avoid potential clinical problems.
7. Integrate ACT into different therapeutic styles and methods as an approach to managing symptoms.
8. Create committed action plans for clients with anxiety disorders to improve level of functioning.
9. Use metaphors to undermine language-based avoidance repertoires to improve client engagement.
10. Utilize clinical strategies to develop an ACT-based behavior therapy plan as it relates to treatment outcomes.
11. Implement emotional, behavioral willingness and exposure techniques with clients to reduce experiential avoidance.
12. Apply ACT techniques to the treatment of specific disorders including depression, anxiety, trauma and personality disorders.

A Non-Profit Organization Connecting Knowledge with Need Since 1979

Looking to improve your therapy approach?

How often do you review your appointment calendar and start wondering how you’re going to, finally, help a regular client who seems to progress for a while – and then regress?

Each time he/she arrives, you use the same tools and techniques you’ve used for so long – and mostly successfully – but this one client is testing your skills. Now, you can begin to integrate **Acceptance and Commitment Therapy (ACT)** into your practice – and see improved outcomes.

Researched and developed by world-renowned researcher, speaker and author **Steven Hayes, Ph.D.**, ACT is fast becoming the treatment approach that gets to the heart of the therapeutic relationship.

Join ACT expert, trainer and co-author with Steven Hayes of *ACT in Practice*, **Daniel J. Moran, Ph.D., BCBA-D**, for this workshop where you will develop highly practical, evidence-based skills, case conceptualization techniques and powerful strategies that will improve outcomes for the following:

- **Anxiety Issues**
 - **Post-Traumatic Stress Disorder**
 - **Mood Disorders**
 - **Substance Abuse**
- **Anger Management**
 - **Eating Disorders**
 - **Trauma**
 - **Personality Disorders**

Attend this intensive, engaging and transformative workshop and start a new path for healing you can use with your most difficult clients.

Free Mindfulness exercises are included! You will also receive copies of ACT-based psychological assessment tools and case conceptualization forms.

Speaker

Daniel J. Moran, Ph.D., BCBA-D, is the former president of the Association for Contextual Behavioral Science (ACBS), the international ACT organization with over 8,000 members worldwide. He co-authored the first case conceptualization manual for Acceptance and Commitment Therapy entitled *ACT in Practice* (New Harbinger) and served on the first ACT training committee.

As a recognized ACT Trainer in the ACBS community, Dr. Moran has an engaging training style that has led him to be an invited keynote speaker for many events in the last decade. He has also been featured on The Oprah Winfrey Network, TLC, and The

Discovery Channel discussing the treatment of many clinical disorders and has published several articles and book chapters, including publications with CBT pioneer Albert Ellis and ACT pioneer Steven Hayes.

Dr. Moran founded the MidAmerican Psychological Institute, a clinic in Chicagoland, and continues to supervise therapists and treat patients in that organization. His passion is for applying the ACT principles in important areas outside of the clinic, such as the boardroom or construction sites. He established Pickslyde Consulting in order to bring mindfulness and value-directed commitment skills to the workplace in order to improve safety, innovation and leadership. Dr. Moran has utilized ACT in work implementations and clinical training sites on six continents and in all 50 of the United States.

Speaker Disclosure:

Financial: Daniel Moran founded Pickslyde Consulting. He is an author for New Harbinger and receives royalties. Dr. Moran receives a speaking honorarium from PESI, Inc.

Non-financial: Daniel Moran is a member of the Association for Contextual Behavioral Sciences.
