Emotional Eating, Chronic Dieting, Bingeing and Body Image

"I'm too fat." "I'm on a diet." "Today is a cheat day."
"Once I lose weight, I'll be happier."
"My eating is out of control."

This kind of language runs rampant in our society and has no doubt made its way to your office. Clients who struggle with weight and food issues get caught in a vortex of shame, preoccupation and hopelessness. Trapped between the rigidity of dieting and the chaos of overeating, every day can be an emotional battle that may exacerbate or even result in low self-worth, eating disorders, anxiety or depression.

Treatment of these issues is more than a matter of weight loss or self-control. In fact, many times these very interventions do more harm than good!

Join Judith Matz as she shows you how to help your clients identify the shame that is woven into the diet-binge cycle, challenge unhelpful thoughts and feelings, and repair dysfunctional relationships with food – no willpower necessary!
