#### Live Webinar Schedule

(Times listed in Pacific)

**8:00** Program begins

**11:50-1:00** Lunch Break

**4:00** Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

## Objectives

1. Appraise the complexities that transgender clients face daily including physical, mental, and social discomfort and how to address these in clinical practice.
2. Develop a deep comprehension of the ways that a client's own identity can create a trusting, effective relationship, and how their identity can negatively affect the clinical relationship.
3. Apply concepts of affirmative clinical practice with gender diverse clients.
4. Appraise the various gender diverse identities and analyze the ways that intersecting identities create further challenges in daily life.
5. Assess your current clinical practice to determine how affirmative your practice is for gender diverse clients.
6. Create a transition timeline and goals with your client.
7. Prepare letters for clients seeking feminizing and masculinizing hormone therapy and gender confirmation surgeries.

# Transgender & Gender Non-Binary (TGNB) Clients

Early in my career, I recognized that without training in affirmative practice, mental health providers are at risk of causing harm to their transgender and gender non-binary clients (TGNB). As a result, mistakes are frequently made by using outdated treatment strategies and having a lack of education of how to work with gender diverse clients.

Today, I know that providing affirmative care practices are critical to ensure the safety of your TGNB clients. I will give you an insider's perspective and guide you step-by-step through navigating the challenges your clients face that are often overlooked by mainstream clinical approaches.

Join me for this must attend workshop and I will show you the power of affirmative care for you and your clients to:

- Overcome the knowledge barrier
- Avoid outdated treatment plans
- Learn and differentiate correct terms such as gender queer, gender fluid and cisgender
- Breakthrough strategies to help your client tell their partner, families, friends and employers
- Gain tips to discuss hormone treatments and surgical procedures

Don't wait to have your next TGNB client educate you about their challenges and clinical concerns! Begin your journey now to start providing a safe place for all your clients to genuinely be themselves.

Hope to see you soon!
