

Outline

VISUAL REHAB FOLLOWING A NEUROLOGICAL EVENT

- Red flags
- Sequence of action
- When should you refer?
- Relationship of eye/brain anatomy to perception/processing

DIAGNOSIS: VISUAL ACUITY & VISUAL FIXATION

- Screening methods
- Treatment and compensation strategies
- Visual fixation for the low functioning client
- Advanced technology options

DIAGNOSIS: OCULAR MOTOR ALIGNMENT & DEPTH PERCEPTION

- Determine the diagnosis
- Cover/uncover test
- Assessment, demonstration & lab practice
- Establish treatment protocols

DIAGNOSIS: VISUAL FIELD CUT

- Anatomical review of the visual pathway
- Determine the diagnosis
- Assessment, demonstration & lab practice
- Peripheral test
- Confrontation test
- Establish treatment protocols

DIAGNOSIS: HEMI-SPATIAL NEGLECT & PUSHER SYNDROME/MIDLINE ORIENTATION SHIFT

- Determine the diagnosis
- Differentiate between cut and neglect
- Why is left neglect more common than right?
- Assessment, demonstration & lab practice
- Simultaneous stimulus test
- Pencil and paper screeners
- Neuro handling principles
- Positioning strategies to rehabilitate
- Establish treatment protocols

DOCUMENTATION & ADVOCACY FOR COVERAGE

- Objective data to incorporate
- Demonstrating improvement
- Develop goals for justification

Objectives

- Articulate an understanding of vision-based rehabilitation and the rehabilitation process.
- Articulate the description of ocular motor skill impairment, visual field loss, visual spatial inattention and midline syndrome.
- Demonstrate competent assessment of ocular motor skills, visual field loss, visual spatial inattention and midline syndrome.
- Distinguish the difference between field impairment and neglect.
- Prescribe treatment interventions for ocular motor skills, visual field loss, visual spatial inattention and midline syndrome.
- Demonstrate effective documentation of assessment and intervention to justify skilled services.

Live Webinar Schedule
(Times listed in Pacific)

8:00 Program begins

12:00-1:00 Lunch Break

3:30 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

What to Have on Hand:

Please bring colored pencils, markers, or highlighters.

A NON-PROFIT ORGANIZATION CONNECTING KNOWLEDGE WITH NEED SINCE 1979

Visual Rehab After Neurological Events

Seeing the World Through New Eyes

Feeling lost in determining a treatment plan with a neurological client? Have you asked yourself:

- What is the best evidence-based therapy protocol?
- How do you know if you are facing a field loss or a neglect?
- How do you determine visual function when your client is confused?
- Is this a vision or cognitive impairment?

Michelle has been in that fog and come out the other side with wonderful, functional, and cost-conscience options to show and share. She sustains that therapy should be specific to the client's challenge and that requires an astute awareness of the impairment. This insight comes from clear assessments that are revealed in this course, along with functional treatment interventions to ensure successful therapy sessions. Michelle shares anecdotes and case studies that highlight how the protocols can be put in to practice. These stories assist in enlightening the inexperienced therapist and commiserating with the experienced therapist. The course content is largely interactive and offers numerous lab sessions proving the engaging experience that therapists crave!

Target Audience:

Occupational Therapists • Certified Occupational Therapy Assistants
Physical Therapists • Physical Therapist Assistants • Speech-Language Pathologists
Nurse Practitioners • Physician Assistants • Nurses • Physicians

Risk Free Purchase! PESI stands by our trainings and we have a 100% satisfaction guarantee. If you are not satisfied, please contact our customer service team at www.pesirehab.com/info or 800-844-8260 and we will make it right.

Meet Your Speaker

MICHELLE MIODUSZEWSKI, MS, OTR/L, has been practicing occupational therapy in acute, inpatient rehabilitation, and outpatient settings through her career. Visual rehabilitation following neurological events has been an area of focus. Michelle owns and operates Niagara Therapy, LLC, a team-oriented practice based in Erie, PA that offers OT, PT, and SLP to adults and children with neurological concerns. She also consults for legal, education, and professional situations.

Michelle is the AOTA Administration and Management Chairperson for the Rehabilitation and Disability Special Interest Section, National MS Society Board of Trustees, and is a National MS Society Partner in Care Designation. She was trained in NDT and NEURO-IFRAH (NDTC), Bioness Certified, REO Certified, SAEBO Certified, and specialized in vision and cognitive rehabilitation. A published writer by AOTA Press, she also teaches on topics such as IASTM, Neuro-Rehab/Neuro-Handling, vision, cognition, spasticity, ergonomics and complex wheelchair evaluations.

Speaker Disclosure:

Financial: Michelle Mioduszewski is the owner of Niagara Therapy, LLC. She receives a speaking honorarium from PESI, Inc.

Non-financial: Michelle Mioduszewski is the AOTA Administration and Management Chairperson for the Rehabilitation and Disability Special Interest Section; and the National MS Society Board of Trustees.

CE CREDITS AVAILABLE FOR LIVE WEBINAR

This continuing education activity is designed to meet state board requirements for the following professionals: **Nurses, Occupational Therapists, Physical Therapists, Physicians, Physician Assistants, and Speech-Language Pathologists.**

For specific credit approvals and details, visit [pesirehab.com/webcast/85656](http://www.pesirehab.com/webcast/85656)

National CE Credit Approvals For Live Webinar

Credits listed are for full attendance at the live webcast only. The CE certificate can be downloaded/printed after completing the webcast and passing the online post-test evaluation (80% passing score). Please see schedule for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

This course is offered for .6 ASHA CEUs (Intermediate level, Related area).

*** Please note that Speech-Language Pathologists must complete the post-test and evaluation within two weeks of attending the live event if they would like their participation submitted to the ASHA CE Registry. Detailed instructions will be provided the day of the program under the Handouts section of the online program.*

PESI, Inc. is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. Nurses in full attendance will earn 6.0 contact hours.

PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322. Full attendance

at this course qualifies for 6.0 contact hours or .6 CEUs in the Category of Domain of OT and Occupational Therapy Process. Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Self-study credit: To check availability for your profession, go to [pesirehab.com](http://www.pesirehab.com) or call 800-844-8260 with your licensing board to verify acceptance of self-study credit for license renewal.
