COUNSELING GRIEF CLIENTS CERTIFICATION TRAINING:

FUNCTIONAL INTERVENTIONS FOR EVERYDAY USE

Clinicians often struggle to develop an effective approach to counseling grief clients due to the uniqueness of each individual's grief. The last 10-15 years have seen an explosion of new research in the field and many new studies have turned what we thought we knew on its head.

Explore this new research about appropriate diagnosis of grief clients, ideas for how to assess grief severity and related constructs, and clarification about what is meant by "complicated grief." Review the most commonly used current models for understanding grief and leave with tools, including 20 interventions, to more confidently assist clients in navigating the adaptive, yet confusing and difficult, grief process. The seminar will end with a focus on self-care, discussing how to appropriately manage and care for ourselves in this demanding, yet fulfilling, work.

Best of all, upon completion of this live training, you'll be eligible to become a Certified Grief Counseling Specialist (CGCS) through Evergreen Certifications. Certification lets colleagues, employers, and caregivers know that you've invested the extra time and effort necessary to understand the complexities of grief counseling. Professional standards apply. Visit www.evergreencertifications.com/CGCS for details.
