Outline

Use Neuroscience in the Treatment of Anxiety

Positives: We know more about anxietybased disorders than any other disorders Science gives explanations, evidence, authority, destigmatizes difficulties **Concerns:** It can be difficult to explain, answer questions Clients may feel a lack of responsibility Oversimplification is inevitable

Enhancing Engagement in Treatment

Don't neglect the therapeutic relationship! Address the challenges of anxious clients Remember that strategies are effortful Guide the process using client's goals Maintain motivation

Neuroplasticity

Define Neuroplasticity in everyday language Therapy is about creating a new self "Rewiring" as an accessible concept for change Re-consolidation: the modification of emotional memories

Identify Two Neural Pathways to Anxiety

Amygdala – bottom-up triggering of emotion, physicality of anxiety Cortex – top-down emotion generation based in cognition Explain the two pathways to clients How anxiety is initiated in each pathway and how pathways influence each other

Client Friendly Explanations

Use illustrations to create concrete understanding Fight/flight/freeze responses The "language of the amygdala" Anxiety and the cortex Help clients recognize the two pathways to anxiety

Neuroplasticity in the Amygdala (Essential for all Anxiety Disorders, PTSD, OCD, Depression)

Sleep and the amydgala The influence of exercise Breathing techniques to reduce activation Relaxation, meditation, and yoga to modify responses Exposure as opportunities for the amygdala to learn combatting avoidance When anxiety indicates that the amygdala can learn new responses Push through anxiety to change the amygdala

Neuroplasticity in the Cortex (Essential for GAD, SAD, OCD, PTSD, Depression)

"Survival of the busiest" principle strengthen or weaken specific circuitry The healthy (adaptive) use of worry in the cortex

"You can't erase:You must replace." Recognize and modify the impact of uncertainty

Training correct uses of distraction Left hemisphere techniques-cognitive defusion, coping thoughts, fighting anticipation Right hemisphere techniques – imagery,

music Mindfulness and anxiety resistances

Neuroplasticity and Medications for Anxiety Disorders, OCD, PTSD, Depression

Medication's effects in the rewiring process

The myth of the chemical imbalance The danger of sedating the brain with benzodiazepines Promoting neuroplasticity with SSRIs, SNRIs

The effectiveness of CBT and meds

Move Beyond Diagnostic Categories to Focus on Anxiety Pathways

Anxiety is a component of many diagnoses (depression, substance abuse, etc.)

Amygdala- and cortex-based techniques helpin other disorders Targeting brain-based symptoms rather

than disorders Worry, obsessions, rumination respond to

similar cortex-based techniques Panic, phobic responses, and compulsions respond to amygdala-based

techniques

Research, Risks and Limitations

Empirical versus clinical and anecdotal evidence Clinical considerations for specific clients and settings Efficacy of particular interventions may vary

Live Webinar Schedule (Times listed in Mountain)

8:00 Program begins 11:50-1:00 Lunch Break

4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

Group Training Solutions Made Easy!

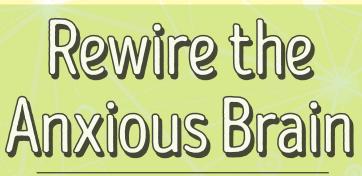

• ONLINE or in-person

CE hours available

 Customizable • Easy remote access • From 5 to 5000

Neuroscience-Informed Treatment of Anxiety, Panic and Worry

LIVE Interactive Webinar Monday, April 11, 2022

BONUS! - Registration includes FREE on-demand access for 3 months.

REGISTER NOW: pesi.com/webcast/86859

- Apply brain-based strategies for Panic, Social Anxiety, OCD, GAD and PTSD

- Increase client engagement by focusing on changing the brain - not simply decreasing anxiety

Join us online for this live training!

Rewire the Anxious Brain

Neuroscience-Informed Treatment of Anxiety, Panic and Worry

Featuring neuroscience and anxiety expert, Janene M. Donarski, PhD, LP, LMSW

- Understand the difference between cortex-based and amygdala-based anxiety
- Motivate clients and calm the anxious brain using the power of neuroplasticity

Live Interactive Webinar Monday, April 11, 2022

BONUS! - Registration includes FREE on-demand access for 3 months.

Rewire the Anxious Brain Neuroscience-Informed Treatment of Anxiety, Panic and Worry

Join neuroscience and anxiety expert, Dr. Janene M. Donarski and learn her keys for successful anxiety treatment. Dr. Donarski integrates brain-based strategies for calming the anxious mind with client communication techniques that motivate change in your clients. Janene's approach promotes adherence to treatment and strengthens the therapeutic alliance - which is essential when working with anxious, worried, traumatized, or obsessive clients.

Dr. Donarski will give you proven tools and techniques to:

- Identify and treat the roots of anxiety in both the amygdala and the cortex
- Explain "the language of the amygdala" in an accessible, straight forward way
- · Identify how the cortex contributes to anxiety, and empower clients with strategies to resist anxiety-igniting cognitions

Register today for this transformational workshop and put the power of neuroplasticity to work for you and your anxious clients!

Objectives

- 1. Ascertain the underlying neurological processes that impact anxious symptoms for clients.
- 2. Develop client engagement in treatment using personalized goals and attending to the therapeutic relationship.
- 3. Evaluate the differences between amygdala-based and cortex-based anxiety symptoms and identify how these symptoms inform treatment interventions.
- 4. Communicate strategies for calming and training the amygdala in order to alleviate symptoms of anxiety.
- 5. Implement methods for teaching clients to retrain the cortex so that anxiety is resisted rather than exacerbated
- 6. Analyze how psychotropic medication impacts neuroplasticity in the brain; identify related treatment implications.

Target Audience:

Social Workers • Psychologists • Counselors • Marriage and Family Therapists • Case Managers Addiction Counselors • Speech-Language Pathologists • Therapists • Nurses Physicians • Occupational Therapists • Other Mental Health Professionals

Risk Free Purchase! PESI stands by our trainings and we have a 100% satisfaction guarantee. If you are not satisfied, please contact our customer service team at www.pesi.com/info or 800-726-3888 and we will make it right.

Have a seminar idea? A manuscript to publish? The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact Josh Becker at jbecker@pesi.com or call 715-855-6363.

Meet Your Speaker

Janene M. Donarski, PhD, LP, LMSW, is a fully licensed clinical psychologist and licensed master social worker who works in counseling therapy as well as psychological testing for mental health issues. Dr. Donarski specializes in neuropsychological assessment of children, adolescents, adults and geriatric populations including head injury, organic issues, emotional and complex behavior disorders. Dr. Donarski works extensively with anxiety issues including panic, hypervigilance and PTSD. She trains others in techniques of relaxation, reduction of fear, and exposure therapies to reduce triggers and symptoms in daily life. She assists in testing within the academic areas including ADHD, learning disabilities and autism for IEPs and/or 504 plans/behavior plans. Dr. Donarski works with all populations in counseling/therapy, including individual, marital/ couple, family, LGBTO, and group counseling. She is a certified EMDR Level II counselor, as well as a certified hypnotherapist and practitioner for Neuro-Linguistic Programming and Time Line Therapy[®]. Dr. Donarski is also experienced in working with victims of violence, foster care/adoption issues, sexual issues, as well as those who are seeking sex offender treatment. She often works with attorneys as a forensic psychologist/expert witness for legal cases involving custody, guardianship, social security benefits, and criminal cases. Dr. Donarski has spoken on a variety of mental health issues, including somatic ailments, behavioral disorders and mental health concerns in the geriatric population.

Speaker Disclosures:

Financial: Janene Donarski has an employment relationship with Family Therapy & Development Centers, Inc. She receives a speaking honorarium from PESI, Inc.

Non-financial: Janene Donarski is a member of the American Psychological Association; Michigan Psychological Association; and National Association of Social Workers.

CE CREDITS AVAILABLE FOR LIVE WEBINAR

This continuing education activity is designed to meet state board requirements for the following professionals: Addiction Counselors, Counselors, Marriage and Family Therapists, Nurses, Occupational Therapists, Physicians, Psychologists, Social Workers, Speech-Language Pathologists

For specific credit approvals and details, visit pesi.com/webcast/86859

National CE Credit Approvals For Live Webinar

Credits listed are for full attendance at the live webinar only. The CE certificate can be downloaded/printed after completing the webinar and passing the online post-test evaluation (80% passing score). Please see schedule for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

in the Counseling Services skill group. NAADAC Provider #77553. PESI, Inc. is responsible for all aspects of their programming. Full attendance is required; no partial credit will be awarded for partial attendance.

PROVIDER PESI, Inc. is an AOTA Approved Provider of continuing education. Provider #: 3322.

Full attendance at this course qualifies for 6.0 contact hours or .6 CEUs in the Category of Domain of OT and Occupational Therapy Process, Partial credit will be issued for partial attendance. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA. Course Level: Intermediate.

PESI, Inc. is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 6.25 contact hours.

PESI, Inc., #1062, is **ØACE** approved to offer social work continuing education by the Association of Social Work Boards

(ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit, PESI, Inc. maintains responsibility for this course. ACE provider approval period: January 27, 2020 - January 27, 2023. Social Workers completing this course receive 6.25 Clinical continuing education credits. Course Level: Intermediate. Full attendance is required; no partial credits will be offered for partial attendance. A certificate of attendance will be awarded at the end of the program to social workers who complete the program evaluation.

.6 ASHA CEUs

** Please note that Speech-Language Pathologists must complete the post-test and evaluation within two weeks of attending the live event if they would like their participation submitted to the ASHA CE Registry. Detailed instructions will be provided the day of the program under the Handouts section of the online program.

This program is Approved by the National Association of Social Workers (Approval # 886759332-3525) for 6.0 Social Work continuing education contact hours
