

Outline

PSYCHOPHARMACOLOGICAL FOUNDATIONS

- Core Pharmacological Principles
  - Brain structures & circuits involved in:
    - Emotional regulation
    - Executive function & inhibitory control
    - Reward & pleasure
    - Learning & memory
  - Receptors and neurotransmitters important in the actions of psychopharmacological agents
    - Biogenic amines
    - Excitatory & inhibitory neurotransmitters
    - Endorphins & endocannabinoids

- Your Role in Combined Psychological & Pharmacological Treatments
  - Collaboration & communication with prescribing professionals
  - Manage the combined treatments
  - Referrals for medication
  - Client psycho-education
  - Monitor drug effects & side effects
  - Promote adherence to combined treatments

DRUGS USED IN THE TREATMENT OF DSM-5® MENTAL DISORDERS

- Depressive Disorders
  - Neurobiology of depression
  - Drugs used to treat depressive disorders
    - Selective Serotonin Reuptake Inhibitors (SSRIs)
      - Effects, side effects, and cautions
      - Suicide risk & discontinuation syndrome
    - Serotonin syndrome
    - Serotonin-Norepinephrine Reuptake Inhibitors (SNRIs)
      - Effects, side effects, and cautions
    - Atypical antidepressant agents
      - Effects, side effects, and cautions
    - Tricyclic antidepressants (TCAs)
      - Effects, side effects, and cautions
      - Why were newer drugs needed?
  - MAO inhibitors
    - Effects, side effects, and cautions
- Choosing an antidepressant
- What if first-line antidepressants do not work?
- Augmentation with antipsychotics
- What about herbs like St. John's Wort?

- Schizophrenia Spectrum Disorders
  - Biological theories of schizophrenia
  - "Typical" & "atypical" antipsychotic drugs
    - Effects, side effects & cautions – similarities & differences
  - Latest evidence-based comparisons
  - Drugs for treatment-resistant schizophrenia
  - Other uses of antipsychotic drugs
- Bipolar Disorders
  - Biological theories for bipolar disorders
  - Drugs used to treat bipolar disorders
    - A prototype agent-lithium
      - Effects, side effects & cautions
    - Anticonvulsants
  - Effects, side effects & cautions
  - Antipsychotics – approved agents
  - Combination drug therapy
- Anxiety, Obsessive-Compulsive & Sleep-Wake Disorders
  - The neurobiology of anxiety-related disorders
  - The structure of sleep
  - Drugs used in the treatment of anxiety & insomnia
    - Benzodiazepines & Benzodiazepine-like drugs
    - Misuse of these drugs in treatment
  - SSRI's & other drugs used to treat anxiety
- Attention-Deficit/Hyperactivity Disorder & Neurocognitive Disorders (Dementia)
  - ADHD
    - Psycho-stimulants
      - Effects, side effects & cautions
    - Alpha-Adrenergic Agonists
  - Major neurocognitive disorders
  - Drugs used in the treatment of cognitive impairment
  - Future treatments
- Prescription Drug Abuse
  - Mental disorders & risk of comorbid prescription drug abuse
  - Classes of drugs that are frequently abused
    - Stimulants
    - Sedative-hypnotics
    - Opiates
  - Strategies for the prevention & early identification of prescription drug abuse

LIMITATIONS OF THE RESEARCH AND POTENTIAL RISK

Objectives

1. Communicate the neurotransmitter systems and neuroanatomy underlying the biological basis for mental disorders and pharmacotherapy.
2. Evaluate the role of mental health professionals who treat clients receiving both psychotherapeutic medications and psychotherapy.
3. Analyze the major classes of drugs used to treat mental disorders and which mental disorders are appropriately treated with each class of drugs.
4. Analyze the effects and side effects of various psychotropic medications, including antipsychotics, antidepressants, benzodiazepines and anticonvulsants.
5. Determine the abuse liability of drugs used in the treatment of anxiety, insomnia, pain and ADHD.
6. Implement methods for prevention and early identification of prescription drug abuse among clients.

Live Webinar Schedule  
(Times listed in Eastern)

- 9:00 Program begins
- 12:50-2:00 Lunch Break
- 5:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).  
Actual lunch and break start times are at the discretion of the speaker.  
A more detailed schedule is available upon request.

# Psychopharmacology

## for Mental Health Professionals

Most clients with DSM-5® diagnoses are being treated with a combination of psychological and pharmacological treatments. Newer drugs are being developed to treat mental disorders based on a better understanding of neurobiological contributions to mental disorders and the latest pharmacological research. To provide appropriate services, you are expected to have a thorough understanding of these common and complex issues. As a mental health professional, keeping up-to-date is essential.

This seminar will update and increase your knowledge of:

- Neurobiological underpinnings of major DSM-5® diagnoses
- Effects and side effects of drugs used to treat these diagnoses
- Responsibilities of the non-prescribing therapist to clients taking psychiatric medication

Specifics of the pharmacological treatment and drugs of choice for **Depressive, Bipolar, Schizophrenia Spectrum, Anxiety, OCD, Sleep-Wake, ADHD and Neurocognitive disorders** will be presented. Unique to this seminar is information on the common types of psychotherapeutic drugs and other drugs that are abused, and methods for prevention and early detection. Throughout the day, representative case studies will generate discussion and examination of the latest drug treatment for DSM-5® disorders. You will leave this seminar with knowledge and confidence regarding effective and safe application of pharmacological drugs.

### Target Audience:

Counselors • Psychotherapists • Psychologists • Social Workers • Nurse Practitioners  
Case Managers • Marriage & Family Therapists • Addiction Counselors • Nurses • Physicians  
Clinical Nurse Specialists • Pharmacists • School Psychologists • Occupational Therapists & Occupational Therapy Assistants • Other Mental Health Professionals

**Risk Free Purchase!** PESI stands by our trainings and we have a 100% satisfaction guarantee. If you are not satisfied, please contact our customer service team at [www.pesi.com/info](http://www.pesi.com/info) or 800-726-3888 and we will make it right.

### PESI Offers Group Discounts!

**Have a seminar idea? A manuscript to publish?** The nation's top speakers and authors contact PESI first. If you are interested in becoming a speaker or have a new topic idea, please contact **Victoria Franz** at [vf Franz@pesi.com](mailto:vf Franz@pesi.com) or call **715-855-8108**.

## Meet Your Speakers

**Alan S. Bloom, Ph.D.,** is professor of pharmacology and toxicology at the Medical College of Wisconsin where he teaches psychopharmacology to medical students and neuroscience graduate students. He earned a joint Ph.D. in psychology and pharmacology and consults regularly with psychiatrists and attorneys in drug abuse and other pharmacology related cases.

Dr. Bloom has conducted extensive research on the impact of drugs of abuse (marijuana, cocaine, etc.) on the brain through use of functional magnetic resonance imaging (fMRI). He also directed research on the cognitive effects of chemotherapy drugs administered to women with breast cancer, commonly known as “chemo-brain”. His studies have been funded by the NIH and other national organizations and reported in an extensive number of publications and presentations. Dr. Bloom has served on the NIDA Center grant review panel and is an appointed member of the Controlled Substance Board of the State of Wisconsin.

Dr. Bloom is a strong and experienced presenter providing lively, information-packed seminars. He encourages the active learning of participants through application of the material in case studies and problem-based learning. In 1997 he was elected to membership in the Medical College of Wisconsin Society of Teaching Scholars.

#### Speaker Disclosure:

Financial: Dr. Alan Bloom has an employment relationship with the Medical College of Wisconsin. He receives a speaking honorarium and recording royalties from PESI, Inc. Dr. Alan has no relevant financial relationships with ineligible organizations.

Non-financial: Dr. Alan Bloom is the Vice Chair of the State of Wisconsin Controlled Substances Board. He serves on the advisory board for the Functional Imaging Research Center.

**Margaret (Peggy) L. Bloom, Ph.D.,** Professor Emerita, Counselor Education and Counseling Psychology, Marquette University, Milwaukee, Wisconsin is a licensed psychologist and NCC certified counselor. Dr. Bloom is nationally recognized for her knowledge and expertise in assessment, DSM diagnosis and counselor education. She is past chair and member of the board of directors of the Center for Credentialing & Education (NBCC), an elected fellow of the American Psychological Association (APA) and past-president of the Association for Counselor Education and Supervision (ACES). Beginning her career as a psychiatric nurse and earning graduate degrees in nursing, counseling, and a Ph.D. in counseling psychology, Peggy brings a unique interdisciplinary perspective to each seminar. She has published numerous journal articles and presented professional education seminars across the world on assessment, diagnosis and counselor education. In addition to her university positions, she maintained a private therapy practice for many years.

#### Speaker Disclosure:

Financial: Margaret Bloom has a employment relationship with Marquette University. She is a consultant for Provost, St. Norbert College and Higher Learning Commission, North Central Association. She receives a speaking honorarium and recording royalties from PESI, Inc. She has no relevant financial relationships with ineligible organizations.

Non-financial: Margaret Bloom serves on the National Board Counselor Certification, Center for Credentialing and Education and the Higher Learning Commission, North Central Association. She is a member of American Counseling Association, American Psychological Association, and Association for Counselor Education and Supervision. She has no relevant non-financial relationships.

## CE CREDITS AVAILABLE FOR LIVE WEBINAR

This continuing education activity is designed to meet state board requirements for the following professionals: **Addiction Counselors, Counselors, Marriage and Family Therapists, Nurses, Occupational Therapists, Physicians, Psychologists, and Social Workers.**

For specific credit approvals, details, and planning committee disclosures, please see the “credit approvals and details” URL below. For speaker disclosures, please see speaker bios.

#### National CE Credit Approvals For Live Webinar

Credits listed are for full attendance at the live webinar only. The CE certificate can be downloaded/printed after completing the webinar, passing the online post-test (80% passing score), and completing the evaluation. Please see schedule for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

This course has been approved by PESI, Inc., as a NAADAC Approved Education Provider, for 6.0 CE in the Counseling Services skill group. NAADAC Provider #77553. PESI, Inc. is responsible for all aspects of their programming. Full attendance is required; no partial credit will be awarded for partial attendance.

PESI, Inc. is an AOTA Approved Provider of professional development. Approved provider# 3322. This Distance Learning-Interactive activity is offered at .6 CEUs Intermediate, OT Service Delivery. The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.

PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

PESI, Inc. is accredited as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation. Nurses in full attendance will earn 6.25 contact hours.

PESI, Inc., #1062, is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. PESI, Inc. maintains responsibility for this course. ACE provider approval period: January 27, 2020 - January 27, 2023. Social Workers completing this course receive 6.25 Clinical continuing education credits. Course Level: Intermediate. Full attendance is required; no partial credits will be offered for partial attendance. A certificate of attendance will be awarded at the end of the program to social workers who complete the program evaluation.

This program offers 380 instructional minutes of pharmacology content which is designed to qualify for 6.25 contact hours toward your pharmacology requirement to receive credit. It is your responsibility to submit your certificate of successful completion and a copy of the seminar brochure to your licensing board.

**Self-study credit:** To check availability for your profession, go to [www.pesi.com](http://www.pesi.com) or call 800-726-3888 with your licensing board to verify acceptance of self-study credit for license renewal.

\*Content and materials in this course may include interventions and modalities that are beyond the authorized practice of your profession. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Kids, PESI Rehab and Psychotherapy Networker.
