

# Outline

## Origin and Research

- The origin of EFT
- The different nomenclature of EFT:
- o Energy Psychology
  - o Thought Field Therapy
  - o Tapping Solution
  - o Meridian Therapies
- Highlight significant cortisol reduction in peer-reviewed, published research

The EFT steps of activating acupoints in conjunction with descriptions of upsets

The profound relaxation response from EFT

EFT includes cognitive interventions

Going beyond talk therapy: Relaxation of activating meridian

## EFT to Eliminate Phobias

- Two categories of phobias: Instinct driven or driven from a past negative event
- Demonstration of finding and treating with EFT the “first or the worst” time
- Live example from the audience, case studies
- The “borrowing benefits” for all to participate

## EFT for Pain Reduction

- Self-applied acupoints: A sister to acupuncture
- Adding metaphors and emotions
- A mobile tool

## Using EFT for Stress, Generalized Anxiety and Panic

- Personal peace procedure
- Checking work and the value of persistence
- Considerations for treating issues thoroughly in the past, present and future
- Quieting the physiological arousal of panic

# Objectives

- 1) Analyze the origin and efficacy of the Emotional Freedom Techniques (EFT) including peer reviewed, published research.
- 2) Utilize exposure techniques and tapping to reduce client distress.
- 3) Demonstrate 3 ways to release pain using Emotional Freedom Techniques (EFT).
- 4) Utilize a two-prong approach to treating social anxiety: EFT and social skill building.
- 5) Modify treatment plans to deliver EFT to a range of disorders.
- 6) Describe modifications to EFT for various client populations.

## EFT treatment for Compulsions and Unwanted Habits

- Finding a baseline
- Treat the “urge” or “desire” to perform the unwanted behavior
- Greatly diminish hand washing, checking, biting nails or thumb sucking
- Check your work via the SUDS intensity measure
- Future performance enhancement protocol to reinforce gains for the future

## EFT with Social Anxiety and Building a Social Skill Set

- Social Anxiety: Fear of being scrutinized by others
- EFT on social situations: Past, present and future
- Establish layers of communication including ice breaker/small talk

## EFT with Acute and Long-Standing Trauma

- EFT movie on Veterans 4 Vignettes of War
- Mind-body sweep: Gentle EFT approach via the associated physical discomfort

**Live Webinar Schedule**  
*(Times listed in Pacific)*

**8:00** Program begins

**11:50-1:00** Lunch Break

**4:00** Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon). Actual lunch and break start times are at the discretion of the speaker. A more detailed schedule is available upon request.

A NON-PROFIT ORGANIZATION CONNECTING KNOWLEDGE WITH NEED SINCE 1979

What do you do with anxiety and trauma clients who do not improve?

The anxiety spectrum exemplifies the disorders where emotions override thought. Fragmented memories get stored in the body. The Emotional Freedom Techniques (EFT) collapse this uncomfortable emotional and physical reactivity, therefore freeing a path for spontaneous insights and clearer thinking.

Emotional Freedom Technique (EFT) is a comprehensive mind-body treatment that desensitizes three areas: unwanted thoughts, emotions and physical reactions. EFT combines physical interventions derived from restorative (self-applied) acupressure theory with cognitive interventions.

EFT is an evidence-based practice with over 100 published studies. One published study demonstrated a 24% decrease in cortisol (stress hormone) level in the EFT group (Energypsych.org). EFT is an effective brief therapy and belongs in every therapist’s tool box.

Transform your clinical excellence; bring EFT into your practice and treat resistant problems that other methods failed.

This seminar focuses on cutting-edge techniques of EFT to treat the anxiety spectrum disorders including:

- Phobias
- Generalized Anxiety
- Social Anxiety Disorder
- Panic
- OCD
- Acute Traumatic Stress Reactions

These mind-body methods are emerging into mainstream mental health, trauma treatment, coaching, employee assistance programs and sport psychology arenas as rapid, effective, non-invasive, calming, desensitizing tools. Do not miss this opportunity to learn evidence-based techniques you can use immediately with your clients and improve treatment outcomes.

Target Audience:

Counselors • Social Workers • Psychotherapists • Marriage & Family Therapists • Nurses  
Psychologists • Substance Use Disorders Counselors • Occupational Therapists • Case Managers  
Chaplains/Clergy • Psychiatrists • Physicians • Other Mental Health Professionals

Clinical Expert

**Robin Bilazarian, LCSW, DCSW, DCEP (Diplomate in Energy Psychology), and International Certified Master EFT Trainer,** is a brief therapy expert, author and speaker who uses passion and humor to share a wealth of knowledge and her twenty years of experience integrating EFT into mainstream mental health treatment. She is the author of the Amazon best-seller *Tapping the Mighty Mind: Simple Solutions for Stress, Conflict, and Pain*. Her passion is to bring these rapid, thorough and gentle meridian and cognitive-based techniques into mainstream clinical mental health treatment.

EFT is a well-researched, comprehensive, mind-body treatment that rapidly desensitizes unwanted thoughts, emotions and connected physical reactions. EFT goes beyond supportive counseling and is actual treatment. It’s surprising how quickly turmoil dissipates; clients are usually better in one session - even if the issue is long standing.

Robin obtained her MSW degree from the University of Pennsylvania and the University of North Carolina/ Chapel Hill and interned at Duke Medical Outpatient Psychiatry. Her more than thirty years of clinical practice includes employment in all levels of mental health treatment, including private practice and using EFT in a community mental health center and with medical staff. She was recruited and worked for fourteen years as an internal Employee Assistance Program counselor, bringing these highly effective, short-term techniques to medical staff and students in a regional trauma hospital. Her trainees also included police, fire fighters, first responders, educators, city workers and others. She ran numerous internal and external EFT workshops, including psychiatric rounds and community conferences. She speaks nationally and internationally on this topic and presents frequently for NASW and Rutgers University. She is a sought-after expert in working with anxiety spectrum disorders.
