

OPIOID USE DISORDER

What Every Clinician Needs to Know About One of the Most Dangerous and Lethal Drug Epidemics in American History

September 6, 2023: 8:30 - 11:45 am Eastern (with 15 minute break)

A national emergency...the worst drug crises in U.S. history. **The grim news surrounding opioid abuse continues to make the headlines.**

But you know what lies behind the headlines. People. People whose lives have been devastated. Jail time and lost jobs. Shattered families. Early deaths and grieving families. **People like you and I, prescribed a highly addictive substance** to treat their chronic pain or after a minor medical procedure, **who find themselves in a dangerous free fall that leaves their lives in ruin.** People who walk through your door look to you for help.

Yet opioid disorders are substantially different from other addictions. Drug driven brain change and physical dependence, coupled with a substance that perilously slows breathing and heart rate have created a deadly epidemic of unprecedented proportions. And many individuals with opioid use disorders have at least one co-occurring mental health problem that must be addressed in the effort to achieve and sustain recovery.

A one-size fits all approach to addiction simply won't suffice. Attend this workshop and learn more about:

- The neuroscience behind the unique risks of opioid abuse
- The signs – when pain management turns into addiction
- Tailored strategies to overcome the barriers to opioid use disorder treatment
- Psychotherapeutic approaches grounded in evidence-based modalities
- Screening tools and treatment strategies for co-occurring disorders
- Details on how Medication Assisted Treatment (MAT) can be combined with psychotherapy

Attend this critical one day seminar and get the tools you need to end the suffering and bring hope and healing to your clients!

Outline

The Unique Nature of Opioid Addiction

Distinct risks of opioid abuse

What neuroscience and biology reveal about opioid use

Brain centers – the relationship between brain centers and pain

The pleasure factor and the addicted brain

Differences from other substance use disorders

How chronic opioid use changes the brain

Psychotherapeutic Approaches for Treating Opioid Use Disorder

Signs of opioid abuse and questions to ask

CBT – recent studies

Motivational Interviewing and commitment to change

Dialectical Behavior Therapy – confidence and coping skills

Acceptance and Commitment Therapy

Family counseling

How contingency management can be used with opioid use disorders

Adjunct approaches

Assessing and modifying treatment to ensure effectiveness

Research limitations and risks of psychotherapeutic approaches

Medication Assisted Treatment (MAT)

Research and the latest findings

Methadone, buprenorphine, naltrexone

Benefits, risks and drawbacks of MAT

Role of the behavioral health clinician in MAT

CANNABIS USE DISORDER

Practical Interventions for One of Today's Fastest Growing Substance Use Disorders

September 6, 2023: 1:00 - 4:15 pm Eastern (with 15 minute break)

As a mental health clinician, you're more likely than ever before to have clients who use marijuana and cannabis products.

And while the last decade has seen a cultural shift toward acceptance of marijuana use, **cannabis has significant addictive potential that you can't afford to overlook as a mental health clinician.** Cannabis Use Disorder can **exacerbate your clients' mental health problems** as they self-medicate to avoid uncomfortable emotions, thoughts, and memories.

Even if addiction isn't the focus of your practice, you need to be prepared when your client's use of marijuana and cannabis products goes too far!

Watch this webinar and you'll get:

- Tools and tactics to identify Cannabis Use Disorder in your clients
- Techniques for successfully treating co-occurring disorders with marijuana users
- Evidence-based approaches to manage cannabis withdrawal symptoms
- The latest on Medication Assisted Treatment

Ensure you're confident in your ability to provide your clients' the best care possible and ready to navigate the ever-changing impacts of drug use on your work!

Outline

Effective Approaches to Marijuana Cessation

Prevalence of marijuana use
Modes of intake
Potency
Pharmacokinetics

The Impact of Cannabis Use Disorder on the Brain

Brain centers – the relationship between brain centers and pain
The pleasure factor and the addicted brain
Differences from other substance use disorders
How chronic marijuana use changes the brain
Cannabis Withdrawal Syndrome (CWS)
Cutting edge research
Symptoms and course of withdrawal
Clinical screening tools
Techniques to lessen symptoms and reduce cravings

Psychotherapeutic Approaches to Treat Cannabis Use Disorder

Signs of marijuana use disorder and questions to ask
CBT – recent studies
Motivational Interviewing and Motivational Enhancement Therapy
Contingency management
12-step counseling

Family counseling
Adjunct approaches
Assessing and modifying treatment to ensure effectiveness
Research limitations and risks of psychotherapeutic approaches

Identify and Treat Co-Occurring Disorders When Marijuana is Involved

The impact of co-occurring disorders on treatment outcomes
Primary disorders vs. substance-induced co-occurring disorders
Screening procedures and tools

- Questions to ask
- Recording results
- Safety issues
- Trauma history

Validity in co-occurring treatment research
Risks associated with co-occurring treatment options

Medication Assisted Treatment (MAT)

Medications that are being used in current trials
Limitations of research and potential treatment risks

Learning Objectives can be viewed at pesi.com/webcast/89645

Target Audience:

Social Workers • Counselors • Psychologists • Addiction Counselors • Substance Abuse Counselors
Therapists • Case Managers • Nurses • Public Health Department Staff
Marriage and Family Therapists • Other Mental Health Professionals

Meet Your Speaker

Hayden Center, PhD, LPC, has been treating individuals and families who suffer from substance abuse disorders, including opioid use disorder, for over 25 years in a private practice setting. Dr. Center most recently served as the evaluator for the Center for Substance Abuse Prevention's (CSAP) Southeast Center for the Application of Prevention Technologies (SECAPT) and the Border Center for the Application of Prevention Technologies (BCAPT).

Dr. Center served as a consultant to the Alabama Governor's Office of Drug Abuse Policy for 10 years and has worked with numerous state and local agencies in the state of Alabama.

He has provided over 200 trainings on the topics of science-based prevention, evaluation, risk and protective factors, co-occurring disorders, and other mental health and substance abuse issues. His current interests are providing training and technical assistance to increase the usage and effectiveness of evidence-based treatments and approaches.

Speaker Disclosures:

Financial: Dr. Hayden Center maintains a private practice and has an employment relationship with the University of Phoenix. He receives a speaking honorarium and recording royalties from PESI, Inc. He has no relevant financial relationships with ineligible organizations.

Non-financial: Dr. Hayden Center is a member of the American Counseling Association.

CE CREDITS AVAILABLE FOR LIVE WEBINARS

Earn up to 3.0 hours/session or 6.0 hours for both!

This continuing education activity is designed to meet state board requirements for the following professionals: **Addiction Counselors, Marriage and Family Therapists, Social Workers, Counselors, Psychologists, Nurses, and Physicians.**

For specific credit approvals, details, and planning committee disclosures, please see the "credit approvals and details" URL below. For speaker disclosures, please see speaker bios.

National CE Credit Approvals For Live Webinar
Credits listed are for full attendance at the live webinar only. The CE certificate can be downloaded/printed after completing the webinar, passing the online post-test (80% passing score), and completing the evaluation. Please see schedule for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

Addiction Counselors: This course has been approved by PESI, Inc., as a NAADAC Approved Education Provider, for 3.0 CE in the Counseling Services skill group for each session or 6.0 CE in the Counseling Services skill group for both. NAADAC Provider #77553. PESI, Inc. is responsible for all aspects of their programming. Full attendance is required; no partial credit will be awarded for partial attendance.

Counselors: This intermediate activity consists of 3.0 clock hours of continuing education instruction for each session or 6.0 clock hours of continuing education instruction for both. Credit requirements and approvals vary per state board regulations. Please save the course outline, the certificate of completion you receive from the activity and contact your state board or organization to determine specific filing requirements.

Marriage & Family Therapists: This activity consists of 180 minutes of continuing education instruction for each session or 360 minutes of continuing education instruction for both. Credit requirements and approvals vary per state board regulations. You should save this course outline, the certificate of completion you receive from the activity and contact your state board or organization to determine specific filing requirements.

Nurses, Nurse Practitioners, and Clinical Nurse Specialists: This activity consists of 3.0 clock hours of continuing education instruction for each session or 6.0 clock hours of continuing education instruction for both. Credit requirements and approvals vary per state board regulations. Please save the course outline, the certificate of completion you receive from this activity and contact your state board or organization to determine specific filing requirements.

Psychologists & Psychiatrists & Physicians:

Psychiatrists & Physicians
PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. PESI, Inc. designates this live activity for a maximum of 3.0 AMA PRA Category 1 Credits™ for each session or 6.0 AMA PRA Category 1 Credits™ for both. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Psychologists

The following state psychologist boards recognize activities sponsored by PESI, Inc. as an approved ACCME provider: Alaska, Arkansas, California, Colorado, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, Oklahoma, Pennsylvania, South Carolina and Wisconsin. This activity consists of 3.0 clock hours of continuing education instruction for each session or 6.0 clock hours of continuing education instruction for both. Certificates of attendance will be issued for you to submit to your state licensing board to recognize for continuing education credit.

Social Workers (NASW): This live remote program, Opioid Use Disorder, is approved by the National Association of Social Workers (Approval #886759332-9553) for 3.0 SUD's (Substance Use Disorders) continuing education contact hours. This live remote program, Cannabis Use Disorder, is approved by the National Association of Social Workers (Approval #886759332-1495) for 3.0 SUD's (Substance Use Disorders) continuing education contact hours.

Social Workers: PESI, Inc., #1062, is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. PESI, Inc. maintains responsibility for this course. ACE provider approval period: January 27, 2023 - January 27, 2026. Social workers completing this course receive 3.0 Clinical continuing education credits for each session or 6.0 Clinical continuing education credits for both.

Course Level: Intermediate Format: Synchronous distance Full attendance is required; no partial credits will be offered for partial attendance.
Other Professions: This activity qualifies for 180 minutes of instructional content for each session or 360 minutes of instructional content for both as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.

Self-study credit: To check availability for your profession, go to www.pesi.com or call 800-726-3888 with your licensing board to verify acceptance of self-study credit for license renewal.

*Content and materials in this course may include interventions and modalities that are beyond the authorized practice of your profession. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Kids, PESI Rehab, PESI AU, PESI UK, and Psychotherapy Networker.
